CORNELL ALUMNI NEWS

VOL. XXIV, No. 7

ITHACA, N. Y., NOVEMBER 10, 1921

PRICE 12 CENTS

PRESIDENT FARRAND continues to make hits with one group after another. He has presided at Faculty meetings of the various colleges and, according to all accounts, dispatches the business with a gratifying conciseness and celerity. The C. U. C. A. gave a Faculty reception in his honor.

A CONVOCATION is to be held in Bailey Hall on Armistice Day, at which President Farrand will speak to the undergraduates for the first time.

PROFESSOR WILLIAM F. DURAND, formerly of Cornell and now at Stanford University, spent a few days in Ithaca recently. He and Mrs. Durand were on their way to Europe, where they will spend his sabbatical leave from Stanford.

RHO PSI, the Chinese fraternity at 212 Fall Creek Drive, had a neighborly housewarming last week, inviting the neighboring members of the Faculty and others to a program of talks, music, stunts, and games. The Faculty members, among whom was David Fletcher Hoy, were not quick at Chinese games, which required a considerable degree of mental alertness.

TAU BETA PI, honorary engineering society, has elected nine seniors and one junior, the latter the one who has received the highest grade in engineering for three years. He is Edward Brainard, mechanical engineering, of Syracuse; his grade is 90.1. The average of all the men elected was slightly more than eighty. The seniors elected are Samuel Burns of New Britain, Conn., and James Hannigan of Forty Fort, Pa., civil engineering; Charles D. Ludlum of Brooklyn, chemistry; and Harold F. Carr of Arcadia, Fla., Robert G. Clark of Denver, Colo., Hodgen T. Foster of Utica, Franklin A. Reed of Buffalo, William G. Rhodes of Ithaca, and Francis V. Ulrich, of Baltimore, Md., mechanical engineering.

THE SAGE CHAPEL Preacher for November 13 will be the Rev. Dr. Samuel A. Eliot, son of President Emeritus Eliot of Harvard and for many years president of the American Unitarian Association.

LECTURES for the week include a popular lecture by Professor Eugene P. Andrews '95 in the Museum of Casts on "Crossing the Atlantic in Winter by the Southern Route and the Stop at Madeira;" a talk by Professor Carl E. Ladd '12 before the Agricultural Economics Club; President Farrand's Convocation address; "The Political and Economic Backgrounds of Disarmament" by Professor Walter F. Willcox before the Current Events Forum of the Christian Association; and "Individualism" by Professor George L. Burr

'81 before the Cosmopolitan Club. Professor Andrews' lecture is the first of a series of fourteen on "The Winter Cruise to the Mediterranean." They are to be illustrated by lantern slides from pictures which Professor Andrews obtained last January and February.

THE WILL of John McMullen, late head of the Atlantic Pacific Dredging Company, by which an indeterminate amount was left to Cornell, is being protested by two nephews, Frank and James McMullen, of Oakland, California.

DR. WILLIAM C. DOUGLASS, who practiced in Ithaca for eighteen years and was at one time city physician and commissioner of charities, died on October 29 in Riverside, California. His body was brought to Ithaca for burial.

THE CHINESE Students' Club has unanimously adopted a resolution to support the Chinese Students' Alliance in the United States for the Washington conference to advocate China's cause.

THE DRAMATIC CLUB presented three plays in the Campus Theater in Goldwin Smith Hall on November 4 and 5. They were "Gringoire," a French romantic skit translated into English by Arthur Shirley; "Blind," by Seumas O'Brien; and "The Pot Boiler," by Alice Gerstenburg. The respective plays were coached by Henry V. Andrews '22, of Lyons; Placida C. Powers '22, of Mount Carmel, Pa.; and Carolyn P. Slater, Sp., of Ithaca.

ALEPH SAMACH, honorary junior society, has elected the following men to membership: Ellsworth S. Brown of Shortsville, Edgar A. Calleson of Brooklyn, Henry J. Dollbaum of Stonington, Conn., Frederick W. Fix, Jr., of Chicago, Ill., Harry G. Fox of Geneva, Hamilton Garnsey, Jr., of Seneca Falls, Walker B. Hough of Denver, Colo., George W. Holbrook of Pleasant Valley, Charles F. Kells of Astoria, Robert S. Millar of Rockaway Beach, Ralph J. Parker of Morris Plains, N. J., Lawrence B. Pryor of Millington, Tenn., Walter R. Rollo of Freeport, Nelson Schaeen of Morristown, N. J., Joseph W. Spencer, Jr., of West Orange, N. J., Everett P. Wheeler, 2d, of Geneva, Ernest C. Woodin of Pawling.

ETA KAPPA NU, national honorary electrical engineering fraternity, has elected three seniors to membership in the Cornell chapter. They are Howard L. Harrington of Niagara Falls, Russell C. Reichart of Greenport, and Ernest V. Strack of Spring Valley.

THE ANNUAL SMOKER of the College of Law was held in the Dutch Kitchen on

November 3. The speakers were President Farrand, Dean George C. Bogert, Professor Lyman P. Wilson, a new member of the Law Faculty, and Judge M. Hough of the United States Circuit Court of Appeals in New York City. Horace E. Whiteside '22, of Bellbuckle, Tenn., president of the Law College Association, was toastmaster.

THE FARRANDS are not living in the model apartment of the Home Economics Building, as announced in a preceding issue of the ALUMNI NEWS, but have the house of Dr. Georgia White, dean of women. At the time that they had to leave the Bennett house, several places were offered them, including the apartment and a suite at the Telluride House; the central location and the comparative roominess of Dr. White's house made that their choice. They do not expect to have to move again until the President's House is ready. Mrs. Farrand's black and white dogs—one black and one white—of Scotch ancestry are living at the Vet College caravansery for canines.

THE FIRST CERTIFICATE for completion of a correspondence course of study given by Cornell was awarded by the Faculty of the College of Agriculture last week on recommendation of the Department of Pomology. The College offers advanced courses in five subjects, the work being conducted through the Department of Publications, with the papers examined and rated by the department concerned.

THE C. U. C. A. announces an intensive drive for \$8,000 from undergraduates, the campaign to start November 13 and run one week. This amount is necessary to refund the deficit incurred by the establishment of the Coffee House.

FLORENCE EASTON, prima donna of the Metropolitan Opera Company, sang to a good-sized audience in the first of the University Concerts in Bailey Hall on November 1, despite inclement weather outside.

FLUSHING High School, which has won first place in the interscholastic cross-country run for the past two years, will not send a team to Ithaca next Saturday because of its entry in the interscholastic meet for Greater New York. More than ten schools had already entered the Ithaca meet early last week.

CONCRETE foundations for the steel stands have been poured, some of the girders are already on the new baseball field ready to be erected. Base lines are being cut and the shed which housed aviation engines during the war is being razed.

Mrs. Comstock Retires

Pioneer Nature Study Teacher Did Much For Cornellians

Mrs. Anna Botsford Comstock, at the close of her work with the Summer School, retired from active teaching at Cornell, and joins her husband, John Henry Comstock, as a part of that group of emeritus professors who meant so much to the life and history of Cornell when it was making a name as a pioneer in the educational field. Mrs. Comstock's great contribution to American education has been the development of nature study as an introduction to many of the natural sciences and to the industries that have been developed from them. Her educational philosophy has been based on the idea that knowledge begins in wonder, and that an alert interest in nature is likely to lead to scientific searches and reasonings. When Cornell's reputation was in the making, she did much to help make it.

Her influence on undergraduate life has always been marked, and it has often been said that to have gone to Cornell and not to have known Mrs. Comstock was to have missed one of the greatest advantages that the University had to offer. She and her husband have together developed some of the best science manuals that are known in American text-books, and they have published them largely because other publishers could not see enough financial return in volumes so painstakingly edited and fully illustrated as the Comstock standards demanded. Mrs. Comstock, through her great skill as a wood-engraver, not only illustrated her own and her husband's books, but became a member of the American Society of Wood Engravers, winning medals in this country and in France.

She and her husband are still working hard and still exerting their wholesome and quiet influence on all with whom they come into contact, as well as through their books, and through *The Nature Study Review*, which Mrs. Comstock edits and publishes.

ENDOWMENT RECORD COMPLETED

The volume containing the names of all donors to the Semi-Centennial Endowment Fund has been received from the binders, and is on exhibition in the University Library. The book was prepared in accordance with a resolution of the Board of Trustees passed two years ago that the names of all donors to the Semi-Centennial Endowment Fund, arranged by classes, should be deposited as a matter of permanent record in the University Library.

The book is bound in red leather with the design stamped in gold. The cover design, a photograph of which appeared in our issue of December 23 last, is by Humphrey Nolan '21. It was selected as the result of a competition in the

College of Architecture. The book is prefaced with a brief history of the Endowment Campaign prepared by Harold Flack '12, Campaign Director.

The list of names is arranged by classes with the list of non-Cornellian, association, corporation and organization donors at the end of the record. In addition the names of friends of the University such as Mr. George F. Baker, donor of the Chemical Laboratory, are also included.

Nearly one thousand subscriptions came in during the last month of the campaign which ended December 31, 1921, all of which were included in this honor roll.

This record will be deposited forever in the archives of the University in the Library as a testimonial to Cornellians and other friends of the University who contributed to the Semi-Centennial Endowment Fund.

SPORTSMANSHIP

"Robertson entered the game with a badly injured nose. Cornell men knew it. And yet the big Green captain emerged with that nose in exactly as good condition as when he entered. Several times (and this is vouched for by a Dartmouth man) Cornell tacklers and interferers when diving into the Somerville athlete took care not to hit that tender spot. It was characteristic of the good feeling permeating both elevens and the thirteen thousand persons in the stands. Genuine regret was expressed by several Cornell men after the game that Robertson had not had the opportunity to show his true form which they hope and believe will gain him national recognition in later games."—Robert A. Harron in *The Boston Transcript* of October 31.

"In connection with Robertson and the game a point worth more than passing interest is the fact that even without a nose guard Jim did not receive the slightest bump in the contest. The Cornell players seemed to avoid the big Dartmouth leader—that is, avoid striking anywhere near his face and they were extra careful to help him. That was the spirit between the teams throughout, and between the student bodies. Cornell and Dartmouth certainly are brotherly."—Tom M. Casidy in *The Boston Herald*, October 31.

"To the credit of Cornell sportsmanship it is worthy of note that Robertson played three periods of the game unhurt, when the slightest pressure upon his wounded proboscis would have eliminated him from further play."—Charles E. Parker in *The Boston American*, October 31.

THE POLO SQUAD has been cut by Major T. J. J. Christian from the sixty aspirants to about twenty members.

FRESHMEN to the number of 156 have been awarded State cash scholarships at Cornell this year.

The Architects' Celebration

Undergraduates' Part in Semi-Centennial Being Reproduced This Week

The presentation this week for student consumption of the play "The Purloined Thumbtack," which was the closing event of the Semi-Centennial celebration of the College of Architecture, has given the University community an opportunity to witness one of the events that made the reunion of Cornell architects during inauguration week an enjoyable and successful occasion. In order to do justice to the other dramatically inclined group which performed for the edification of the architects, the stunt arranged by the New York alumni should also be reproduced for general consumption. Both the Friday and Saturday night entertainments were indications of the first fiftieth birthday celebration which was entered into by 120 alumni of the College of Architecture.

The more serious parts of the celebration found an important place in the two-day program which the committee had arranged. The opening session of the Semi-Centennial was in the form of a program of talks by Dean T. Frederick Crane, Professor William Emerson, of the Massachusetts Institute of Technology, and Thomas Hastings, of New York.

Dean Crane, emeritus professor of Romance languages, who has been interested in the development of this branch of the University's work, gave an enlightening address on the history of the college, tracing its growth from the time of its inauguration, in 1871. He dwelt particularly on the work done by three men, whose memory he wished to revive. They were President Andrew D. White, Professor Charles Babcock, the first professor of architecture, and Professor Charles F. Osborne, who was later appointed as his assistant, and the only other instructor in architecture.

Thomas Hastings, generally considered by the members of his profession to be the dean of architects in the United States, who was the principal speaker at the exercises, gave an interesting and valuable address on the development of the science of architecture and spoke of the science in its many varied aspects. He said, during the course of his talk:

"Since the founding of your school of architecture, radical changes have taken place, with higher standards of scholarship, vindicating the wisdom of your Faculty and Trustees. Everywhere general education has been the subject of controversy between pedagogue and practitioner from the kindergarten to the university. In this country it would seem that nowhere else has such remarkable progress been made as obtains in the methods of teaching architecture. I venture to say that if such revolutionary changes had taken place in the domain of any other intellectual profession, the

world would have been amazed at the results accomplished."

In bringing greetings from the Massachusetts Institute of Technology, Professor Emerson spoke as follows:

"The Massachusetts Institute of Technology sends greetings and congratulations to Cornell on the occasion of this notable gathering; greetings and good wishes to Dr. Farrand, a valued and admired friend of many years' standing, tried during the years of peace by varied and important executive responsibilities, and proved during the years of war as the true steel that has been tempered in the fire of experience. We who have known him and worked with him will ever recall the human sympathy, the inspiring impulse that followed wherever he set his hand. Such a prospect, bright and full of promise, lies before Cornell, towards the fulfillment of which the Massachusetts Institute of Technology offers a full measure of friendly good wishes.

"As the greater includes the less, so does the Massachusetts Institute of Technology include its department of architecture and lend to it the lustre of its name and reputation. Proud of our contribution to its reputation, we, the oldest existing school of architecture in this country, take pleasure in bringing our congratulations to the College of Architecture of Cornell University upon its 50th anniversary. We further take pride, as becomes the elder sister, in the maintenance by the Cornell College of Architecture of those high standards of professional and educational accomplishments that Professor William R. Ware, first at Technology and later at Columbia, established as the foundation stones upon which all sound architectural teaching should rest.

"That Dean Bosworth should recently have been called to direct the policy of your College of Architecture adds to our interest and confidence in its future, for he has brought to his task that sound training in principles, that rich and resourceful acquaintance with detail that France, the great teacher, ever offers to those who worship at her shrine. We are sure that many other such anniversaries lie before you."

THE FIRST Polo Dance of the year, the proceeds from which go to support the team, was held last Friday on The Knoll.

REUNION PLANS

As the result of the meeting held in Ithaca on October 22, plans for the class reunions of next spring are further advanced than has ever before been possible. Although held under the auspices of the Association of Class Secretaries, the meeting was unofficial in that it did not include all members of the association, but it was generally agreed that the ground work has been laid for successful class celebrations, a breaking away from the traditionally weak reunions of the past.

Andrew J. Whinery '10, president of the association, will shortly announce the personnel of a committee he was instructed to appoint, to consist of one representative of each class that proposes to hold a reunion next June. Special powers will be delegated to a smaller executive committee. Although each class will maintain its own organization and be responsible for the success of its celebration, it was the unanimous sentiment of the meeting that the propaganda for all classes be centralized, the general committee working closely with the office of the alumni representative.

The class of '07 will this spring continue the successful custom of playing the host, as the fifteen-year class, at a general meeting of all classes on the last night of reunion week.

It was the unanimous vote of the meeting in Ithaca that reunions at any time other than during the regular week in June are undesirable and should be discontinued.

The following classes were represented at the meeting: '71, R. G. H. Speed; '77, W. O. Kerr; '83, H. C. Elmer; '84, Henry P. deForest and E. G. Story; '86, Luzerne Coville; '87, Veranus A. Moore and Martin H. Goodkind; '88, W. W. Rowlee; '90, A. N. Gibb; '91, Willard Austen; '97, George N. Lauman; '02, William J. Norton; '04, Mary Crawford and Cecil J. Swan; '07, Winthrop Taylor and R. W. Sailor; '09, Robert E. Treman; '10, Andrew J. Whinery; '12, Mrs. A. A. Allen, R. W. Kellogg, J. I. Clarke, and Foster M. Coffin; '14, Clara Howard; '19, C. G. Seelbach; '21, Allan H. Treman.

AMERICANS IN EUROPE

With a view to the closer coordination of American activities in international education, the trustees of the American University Union in Europe have decided to accept the office of the Institute of International Education in New York as the center and clearing house for dealing with general questions of international education. The Union offices in London and Paris are to be the clearing houses for similar questions in England and France in which American interests are involved. The directors of these offices will be appointed by the Union after consultation with the director of the Institute in New York.

A committee known as the American Committee on International Education will be formed, composed of the director of the American Council on Education, the director of the Institute of International Education, the secretary of the American University Union, and the American representative of the International Federation of University Women. This committee will work on the problem of more efficient conduct of business of interchange of teachers and students and other arrangements having to do with international educational movements.

The annual reports of the directors of the British and French offices of the American University Union for 1920-21 show an increase in the use of the Union over that of the previous year. The London office reports 1,153 registrations and 228 applications for teachers' posts or exchanges, as compared with 638 of the former and 129 of the latter in 1919-20. The registration in the Paris office was almost double that of the preceding year, having reached a total of well over five hundred in French universities coming from 103 American institutions, in addition to a large number studying in the Beaux Arts and other institutions not directly connected with the French universities.

CORNELLIANS IN NAVY

A five-day examination given on July 5-13 by the Bureau of Yards and Docks of the Navy Department, resulted in thirteen men being commissioned lieutenants, junior grade, in the Corps of Civil Engineers, United States Navy. Cornell men finished as follows: first, John C. Gebhard, C.E. '19, assigned to the Brooklyn Navy Yard; third, Robert E. Basler, C.E. '17, assigned to the Navy Department, Washington, D. C.; eighth, John J. Gromfine, C.E. '17, assigned to the Puget Sound Navy Yard; ninth, John J. Chew, M.E. '15, assigned to the Philadelphia Navy Yard. They were commissioned as of August 12, 1921.

Other members of the Corps are Lieut. Henry G. Lehrbach, C.E. '15, and Lieut. (j.g.) Cushing Phillips, C.E. '17.

A CABLE FROM PARIS

Cornell alumni in Paris took the occasion of the inauguration of President Farrand as the incentive for the first activity of the fall season among Cornellians in the French capital, when ten alumni joined in sending a cable of the greetings of Cornell men in France to the new President. The cablegram was as follows:

"Cornellians assembled in Paris send heartiest congratulations to their new President, wish him many years of good health and success, and assure him of their devotion to the welfare of their Alma Mater."

The meeting was presided over by Alphonse D. Weil '86 and was attended by Charles D. Westcott '93, Ray R. Powers

'07, Floyd C. Stephens '08, Marcel S. Levy '09, Ray P. Bowen '16, James R. Wadsworth '20, Glenn R. Morrow '21, and Ernest W. Nelson '21.

Among the Cornellians who registered at the Cornell Bureau of the American University Union in Paris during the summer and fall are: Grace A. De Laguna '03, George L. Genung '05, Wallace E. Caldwell '10, Christopher L. Devitt '10, Elizabeth Undsitz '11, Kerr Atkinson '12, Harold Flack '12, Ridgeway Bishop '16, Neil A. Gorman '16, Donald P. Junes '17, Lewis R. Koller '17, Elsie Church Atkinson '18, Ernest W. Nelson '20, Alvin S. Purdy '20, James R. Wadsworth '20, Glenn R. Morrow '21.

DIRECTORS TO MEET

The annual fall meeting of the Board of Directors of the Associate Alumni will be held at the Union Club in Cleveland, on Saturday, November 19, at ten o'clock in the morning. At this meeting, which will be the first for the new officers elected last June, the most important matter to be discussed will be the plans for the second annual Cornell convention, the successor to that held in Cleveland last May.

At the Cleveland convention last year it was decided that the next convention should be held in Chicago. The Board of Directors of the Associate Alumni will determine when it is to be held and what form it should take. The convention held last year was fathered by the Associate Alumni as the first of an annual series to be held at some place outside of Ithaca.

COFFIN TOURS NEW ENGLAND

Under the auspices of the Cornell Club of New England, Alumni Representative Foster M. Coffin '12 went on a tour this week from Ithaca which took him to Boston, Providence, Worcester, and Springfield. The first meeting was held in Boston Monday noon with lunch at the Hotel Essex. From Boston Coffin went to Rhode Island for a luncheon meeting at Providence on Tuesday, November 8. Wednesday was spent in Massachusetts, with a noon meeting at Worcester and an evening meeting in Springfield.

This trip is the sequel to the drive which the Cornell Club of New England has been making to reach every available Cornell man in its territory. The club includes all the New England States with the exception of Connecticut, which maintains a separate organization. It has long been one of the most active of the Cornell alumni clubs.

Arrangements for the meetings were made by the following alumni: Boston, Creed W. Fulton '09, president of the Cornell Club of New England; Providence, Frederic E. Jackson '01; Worcester, Chester T. Reed '03; Springfield, Roscoe C. Edlund '09.

SPORT STUFF

Ever since the war (and longer for all I know) the undergraduates have been very conservative in the matter of clothes. The normal Junior dressed himself for a nine o'clock lecture on Greek philosophy about as a fastidious physician of fifty would get himself up for a round of professional visits. A sober sack suit, a dark cravat, well kept shoes, a decent white collar and a neatly creased soft hat. One saw knickerbockers of course and sheep coats in cold weather, but there was much horror of appearing to be rah rah or college.

On the occasion of the football game with Dartmouth some very delightful young ruffians blew in from Hanover, took a look at our chaste and spotless young gentlemen and immediately became personal. "What is the big idea?" "You don't have to dress up for us. Just treat us like home folks." "When is the funeral to be?" "What do your valets do when you go out of town?"

The change was noticeable about Tuesday of the following week. Flannel shirts are now the thing. Yellow slickers have come back and I suspect more than one youth of smearing his perfectly good hat to make it look old and battered.

All of which is reported as a change for the better. We were getting a little too middle aged, correct and deportmentalized.

To write about the University in November and not mention football is quite an accomplishment, but we have done it.

R. B.

NEW YORK DINNER TO FARRAND

The Cornell Club of New York will give a testimonial dinner to President Farrand at the Waldorf-Astoria Hotel on December 9. The committee on arrangements is already claiming that the attendance records of the famous New York dinners of the past, the Hughes celebration in 1907 and the Cornellian Council dinner in 1916, will be broken with more than a hundred to spare.

Although under the auspices of the club, the dinner will be open to all Cornell men.

CLEVELAND HEARS GREEN

Seventy-five members of the Cornell Club of Cleveland at their regular weekly luncheon at the Hotel Statler on November 3 were told how Penn will beat (?) Cornell on Thanksgiving Day. Eddie L. Green, Pennsylvania '08, was speaker. Green was a famous Pennsylvania football player and helped defeat Cornell several times. He was also an All-American choice. In his talk, however, Green admitted that it looked as if Cornell would beat Penn this year.

After reciting a number of football

reminiscences Green told the Club what the Better Business Commission of Cleveland, of which he is manager, is doing for the community. He said the Commission is an organization operating under the auspices of the Cleveland Ad Club and an executive committee of leading business men and that the object of the commission is to protect the community against untruthful advertising, misrepresentation in retail sales, and the unscrupulous promotor. He cited numerous incidents to show that the commission more than justified its existence.

"Bub" North appeared on the job again at this luncheon and there was more pep shown than at any previous luncheon this year. The turn-out at the University Club last Saturday to hear the returns of the Dartmouth game was unusually large and needless to say the result caused much delight.

BUFFALO AWARDS CUP

The Cornell baseball cup in Buffalo was awarded to the Masten Park High School on Monday, October 24. This was the first time Masten Park has won the cup which Cornell alumni offer to baseball teams of Buffalo high schools.

Parton Swift '98, president of the Alumni Association of Western New York, opened the program of the exercises for presentation. He introduced Judge Harry Taylor '88, one-time Cornell baseball player, who presented the cup to Manager Ferguson of the Masten Park team. Other talks were made at the request of Dr. Fosdick, principal of the school, by D. F. Potter, Jr., '16, athletic director of the Buffalo club, Ralph McCarty '96, secretary-treasurer of the association, and James Storer '12, secretary of the Board of Education.

The Cornell baseball cup has been won twice each by each of the other high schools, Lafayette, Hutchinson, Canisius, and Technical. If Masten Park should win it again next year there will be keen competition for the permanent possession of the trophy, which goes to the team which wins it three times.

ALUMNI CELEBRATE RETURNS

Cornell's sensational victory over the Dartmouth football team on October 29, from indications contained in luncheon notices, served as an effective lever to pry Cornell alumni from their usual haunts to attend Cornell luncheons and dinners last week.

The Detroit club met with Dartmouth alumni and "listened in" on the Dartmouth game. There was doubtless more than listening done by the Cornell half of the lunch guests. At the last meeting William P. Rutledge, superintendent of police of Detroit, spoke.

The Buffalo announcement sets the football team up as a model for good Cornellians to follow. "If the University means anything to you, come out and

prove it," the notice reads; "the football team did its part last Saturday."

Rochester Cornellians adopted the slogan "59-7" as the caption for their lunch card last week, and joined the Syracuse triumph of the cross country team with the football victory as the important events of the week. Frank J. Clary '17, catcher on Cornell's varsity for several years, was the principal speaker. He told of the events that happened in Ithaca on the day of Dartmouth's defeat.

"Let's celebrate last Saturday's victory," urged the secretary of the Cornell Club of Chicago, in sending out the regular notice for the weekly lunch at the Hamilton Club.

Pittsburgh alumni listened to "Brick" Metcalf's story of Dartmouth's trimming, together with singing by "Bunny" Ramsburg, assisted by "Doc" Umstad. The annual meeting of the Pittsburgh club has been postponed until November 12.

LAND GRANT CONVENTION

Cornell sent five delegates to the annual convention of the Association of Land Grant Colleges at New Orleans on November 8, 9, and 10, and is well represented by alumni from other colleges and universities. The official delegates are Dean Albert R. Mann '04 to the section on agriculture; Dean Dexter S. Kimball to the section on engineering; Professor Martha Van Rensselaer '09 to the section on home economics; Vice-Director Maurice C. Burritt '08 to the section on extension, and Vice-Director William H. Chandler to the section on experiment stations.

Besides the University's delegates, the following Cornellians will take part in the discussions: Raymond A. Pearson '94, president of Iowa State College; Anson Marston '89, dean of engineering, Iowa State College; Frederick E. Turneaure '89, dean of engineering, University of Wisconsin; George W. Bissell '88, dean of engineering, Michigan Agricultural College, and Jacob C. Lipman '99, director of the New Jersey Agricultural Experiment Stations.

INTERCOLLEGIATE NOTES

ACCORDING to the recent report of the secretary and treasurer of the University of Michigan, the present resources of that institution amount to \$13,961,799.54. In round numbers the property consists of the educational plant, \$11,705,000; trust funds, \$968,000; current funds and supplies, \$740,000; investments, \$550,000. Included under the first item is real estate valued at \$825,000, buildings valued at \$7,388,000, and equipment worth \$3,280,000. The original lands granted the university under the Morrill Act of 1862 were sold for \$547,489.40, which now yields an income of \$38,416.64. The treasurer administers 187 trust funds amounting to \$967,634.94.

LITERARY REVIEW

A Great Journalist

News Gathering in Three Continents. By Julius Chambers '70, F.R.G.S. New York. Mitchell Kennerly. 1921. 8vo, pp. xvi, 405. 14 illustrations. Price, \$3.50.

Julius Chambers was a born journalist, with a sense for news and the ability to get it. Moreover, he was a lover of adventure, and the sport of news hunting was for him one of the most enjoyable in the world. In the course of a long experience he had many adventures with all sorts of men. This book of reminiscences is the record of the most striking of these experiences.

For instance, there is the story of his voluntary incarceration in Bloomingdale Asylum in 1872, when it was not uncommon for disreputable physicians to send sane persons to the asylum in order that some of their relatives might "manage" their property. We get a vivid picture of the living hell in which too many sane persons were condemned to exist in those days.

Then there is the story of the murder, the committing of which he heard over the telephone via a "lost" wire—a story rivaling in interest any from that romantic world which we know as the detective story.

It is not given to every mortal to be present at the birth of a ghost. Chambers's narrative of the ghost of Limerick Hook is unique.

Some of these reminiscences form contributions to history: for example, the fact that it was Chambers who secured the transfer from French to American soil of the remains of John Paul Jones, a project for which the American ambassador at the time received all the credit. There is also the record of Chambers's discovery of the head waters of the Mississippi River.

Of political pictures there are several: the return of Andrew Jackson to public life in the Senate; the reason why Blaine withdrew from the Presidential race in 1888; glimpses of Hamilton Fish, Grant's Secretary of State, Roosevelt, Benjamin F. Butler, Greeley, and Tilden. Two great newspaper men, who helped to make history, figure prominently in the book—James Gordon Bennett, Jr., and Joseph Pulitzer.

It is a book to be read most profitably in small doses at a time. Here is the stuff of real life, to be considered well; and through it all shines a genial, manly personality, a man who revealed the stuff that was in him when he puts himself through college by setting type and who brought glory to his Alma Mater. One curious slip occurs on page 122: The Montreal Express passes over the Delaware and Hudson (not Ohio) Railroad. There is a good index.

Books and Magazine Article

Dr. Jacob G. Lipman, A.M. '00, Ph.D. '03, dean of the New Jersey State College of Agriculture at Rutgers, is the author of the following articles in *The Pennsylvania Farmer*: "Preparing the Seed Bed for Wheat," July 2; "Calcium Cyanamid or Lime Nitrogen," July 15; "Nitrate of Lime," July 23; "Sulphate of Ammonia," July 30; "The Trend of Fertilizer Prices," August 6; "The Proposed Import Duty on Potash," August 13; "Experiments by the Farmer," August 27; "Permanent Soil Fertility," September 10.

Dr. Leon W. Hausman '14 has been invited to become a cooperating editor of the lately reorganized *Scientific American*. This is a deserved honor for one of the most active of the younger research workers on the Hill.

In *Outing* for November Horace Kephart, '81-4 Grad., reviews Charles Winthrop Sawyer's "Our Rifles, 1800 to 1900."

Porter R. Lee writes in *The Family* for October on "The Common Problem of the Family Case Work Agencies and the Schools."

In *The Survey* for October 15 Professor Blanche E. Hazard's "The Organization of the Boot and Shoe Industry in Massachusetts Before 1875" is reviewed by William L. Chenery.

In *The Journal of English and Germanic Philology* for July, lately published, "The Theocritean Element in the Poetry of William Wordsworth" by Professor Leslie N. Broughton, Ph.D. '11, is reviewed by Arthur Stanley Pease.

In *The Scientific Monthly* for November Dr. David Starr Jordan '72 writes on "The Miocene-Shore Fishes of California."

In *The New York Times* for October 23 Professor Walter F. Willcox writes on "House Apportionment."

In *The Stanford Illustrated Review* for October Dr. Orrin L. Elliott '85, registrar of Stanford, writes on "Probation and Scholarship." Stanford has recently changed her probation policy so that a student on probation can now take part in extra-curricular activities on the same footing as the student who is not on probation. The notice of probation is intended as a warning to the student, and as indicating that probably outside activities should be given up; but the responsibility for giving them up is now placed squarely on the student.

Robert E. Bassler '17 contributed to the issue of *Automotive Industries* for May 19 an article on "The Development and Present Status of German Airships." The article is accompanied by tables giving the characteristics of all types of German airships, non-rigid, semi-rigid, and rigid. These data were in part translated from German periodicals; it is the author's impression that they have never before been brought together in an English form.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly during the summer; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

A FOOTBALL DREAM

The past performances of the 1921 football team give indications that might easily lead alumni to hand it a premature crown and dub it champion.

It is a good football team, with class that not many Cornell teams have shown. Whether the Thanksgiving Day game at Philadelphia satisfies the Cornell stands or not, the situation can be said to have materially improved this year, and Gilmore Dobie's system, with its silence, gloom, reticence, and hard work, begins to vindicate itself, as a victorious system always does.

The obvious conclusion to which the fervent alumnus naturally jumps is that Cornell should at once challenge all the traditional leaders of New England to home and home games and have all the wild cats of the Pennsylvania mountain ranges up to Ithaca on successive Saturdays. Having cleaned up the regular schedule, the team should go on a tour and trim the champions of some of the choicer sections of the country and come back in time for midyear examinations the unquestioned champion of the United States.

This composite view of the future of the football team is entrancing but prema-

ture, and fails to carry our heroes beyond the beginning of block week. If we were merely football fans we should like to see it. As representatives of an educational institution of first rank and considerable difficulty, we should prefer it as a movie scenario.

The team is good. It has power. It gives protection to its runners. It doesn't seem to have stage fright. And it is mostly sophomores and juniors.

To the extent that this material performs better than it did last year credit is due to Coach Dobie, and the development of the football situation for the next few years is safer in his hands than it is in the imaginations of part time followers of the game.

We should be satisfied if, at the end of a period of years, Cornell occupies a position in the football world that it occupies in nearly everything else that it has put its hand, or its head, to; if a half of the composite alumni pipe dream is realized.

As for 1921 teams, if it maintains its edge for the next two games, escapes defeat by a reasonable margin, and passes its midyear examinations, what need of a championship proclamation? The 1921 team is the substratum of a foundation that is being laid on which we hope the monuments can be built so they won't rock.

OBITUARY

Charles W. Raymond '76

Charles Ward Raymond died in Sacramento, Calif., on October 27, following a stroke of paralysis.

Raymond was seventy-two years old, and had been in failing health for some time. Registering from San Francisco, he received the degrees of B. C. E. and C. E. at Cornell in 1876 and 1878, respectively, and was an original member of the Adelphi Literary Association. He returned West after his graduation, and worked for some of the leading quartz mining companies in California and Colorado, spending several years at Grass Valley. He went to Sacramento a number of years ago, and had an office at 318 Ochsner Building until the time of his death.

He leaves a daughter, Miss Elizabeth Raymond of San Francisco, and two sisters, Mrs. Fannie Smedberg and Mrs. George F. Ashton, also of San Francisco.

J. Paul Bright '17

Joseph Paul Bright died suddenly on October 29 while motoring to Princeton, N. J., to attend the football game. A blood clot in a main artery near the heart was the cause of his death.

"Babe" Bright was born in Wilmington, Del., on May 3, 1896, the son of Mr. and Mrs. Paul Bright. He prepared at the Wilmington High School, and entered the College of Civil Engineering in 1913, receiving his degree in 1917. He was a member of Kappa Sigma and Rod and Bob,

and in his junior year was a member of the board of *The Cornell Civil Engineer*.

For three years after leaving college he was connected with the Fore River plant of the Bethlehem Shipbuilding Corporation, and was actively engaged in the construction of the destroyer at the Squantum plant. Early last spring he became engaged in the real estate business in Atlantic City, N. J.

He leaves his widow, who was formerly Miss Mildred Satterthwaite, his father, a brother, and a sister.

FACULTY NOTES

PROFESSOR HEINRICH RIES has been appointed a member of the executive committee on molding sands research of the National Research Council. This committee will make a study of field and laboratory methods used in investigating molding sands.

PROFESSOR WILLIAM C. BALLARD spoke before the first annual convention of the Eighth District radio operators in Buffalo on October 28 and 29.

THE ATTENDING STAFF of the Memorial Hospital for the treatment of cancer and allied diseases, drawn from the Faculty of the Medical College in New York, have published letters in the metropolitan papers saying that they unanimously disagree with the recent assertion of Dr. John B. Deaver, of Philadelphia, that radium as a remedy for the relief and cure of cancer has failed. Dr. Deaver is president of the American College of Surgeons.

DEAN DEXTER S. KIMBALL, president-elect of the American Society of Mechanical Engineers, is to be the guest of honor at a reception given by the metropolitan section of the Society on December 6.

CLARENCE C. KOCHENDERFER, Ph.D. '15, formerly instructor in political economy, is in charge of a course in transportation in the new School of Commerce in the University of Maryland. He is also chief of the European Division of the United States Bureau of Foreign and Domestic Trade and director of the department of commerce of the George Washington University. During 1918-19 he was statistician of the operating division of the United States Railroad Administration.

PROFESSOR ARTHUR B. RECKNAGEL, of the Forestry Department, spoke to the Albany Rotary Club on "The National Forest Policy" on October 28.

PROFESSOR OTHON G. GUERLAC opened the season for the French Alliance of Rochester on October 29, where he led a conference.

PROFESSOR BRISTOW ADAMS, who has judged State-wide newspaper contests for New York, Kansas, and Minnesota, is going to Florida to judge a similar contest

at the State Fair to be held at Jacksonville during the week of November 13. While in Florida, he will also visit the University of Florida at Gainesville, at the invitation of the University, to address the journalism classes.

PROFESSOR ALBERT C. PHELPS, of the College of Architecture, gives two of the Saturday lectures at the Metropolitan Museum of Art in New York this year. On December 17 his subject is "Architecture as a Human Document: Ancient and Mediaeval Styles;" on December 24, he will lecture on "Architecture as a Human Document: Renaissance and Modern Works."

DEAN ALBERT R. MANN '04 will be toastmaster at the annual conference dinner of the American Country Life Association at its fourth annual meeting in New Orleans, November 10 to 12. He is chairman of the executive committee of the Association.

PROFESSOR JAMES E. RICE '90 and Mrs. Rice have returned from Europe, where Professor Rice represented the United States at the World Poultry Conference at The Hague.

PROFESSOR JEREMIAH W. JENKS, now at New York University but formerly at Cornell, is one of the "counselors to China" named for the Disarmament Conference at Washington.

PROFESSOR EDWARD L. NICHOLS '75 was one of six former pupils of Helmholtz who attended the convention of the Optical Society of America in Rochester on October 24 to 26. Professor Nichols and Professor Harley E. Howe, of the Physics Department, presented a technical paper on "The Blue Glow" before the convention.

FOUR REPRESENTATIVES of Cornell attended the sessions of the annual country life conference held this week in New Orleans. They are Dean Albert R. Mann, Vice-director Maurice C. Burritt, Professor Dick J. Crosby, and Professor Martha Van Rensselaer, all of the College of Agriculture. Professor Dwight Sanderson, now studying at the University of Chicago, had a paper which was read by Professor Crosby.

DR. HARRY BRITTON, of Reading, Pa., has been appointed medical examiner at Cornell.

PROFESSOR BRISTOW ADAMS has been asked by Henry C. Wallace, Secretary of Agriculture, to go to Washington long enough to revise, for 1922, the Agricultural Almanac which he compiled for the Federal Department last year. This almanac had an edition of 250,000 copies, and the edition was exhausted within a few weeks after publication.

DEAN ALBERT R. MANN '04 was one of the speakers at the Pennsylvania State Extension Conference at State College the week of October 10.

November 24, Pennsylvania at Philadelphia

Cornell Defeats Columbia

Cornell overcame Columbia by a score of 41 to 7 at the Polo Ground in New York last Saturday, giving another demonstration of smashing offensive power, sprung from sound team play, and grounded on one of the finest lines that have been developed here in years.

In the first half the team, according to newspaper critics, lived up to all the nice things that have been said about it since the impressive victory over Dartmouth. Its defense was well nigh impenetrable, its offensive speedy and full of dash. The interference was of a high order of effectiveness; the punting game and end play was an improvement over that of the Dartmouth game, and the ball was handled more cleanly. It was a well drilled, well directed team, alert on offense and defense, and always it had power.

The first half found the Cornell machine rolling as smoothly and as effectively as in the Dartmouth game; in the second half a gallant reversal of form by Columbia which found the New Yorkers playing more effectively than in the first half, and a series of penalties, about one hundred yards in all, checked the drive, though it can hardly be said that the machine slowed down much. Columbia was certainly better in this half, and much hard-earned Cornell ground was lost through penalties, and a great deal of vigorous and well directed effort nullified. Penalties for holding and for offside came so thick and fast as to be puzzling. The team seemed to be playing about the same type of game and along the same lines as in the first half. Perhaps the up-and-at-it spirit, the keynote of this eleven, created an overeagerness and anxiety to keep on the go that was to blame.

It was the punch that beat Columbia, a simple punch with a world of power back of it. Cornell did not use more than five or six basic plays. Finding the Columbia center a pretty tough obstacle, Pfann directed an off-tackle and end attack almost from the start, and most of the gains were made from these formations, though occasionally Ramsey and Olney found their way between guard and tackle and more rarely through center.

For two periods Columbia was powerless to stem this Red drive, which broke past tackle and either skirted the ends or

cut in and avoided them. Three and four men protected the runner, as in the Dartmouth game. Kaw was particularly effective in these off-tackle plays, fighting, dodging, running, squirming, and slipping his way through Columbia time after time. Pfann was another prominent factor in the offense. He showed to better advantage against Columbia than in any other game this year, skirting the tackles and sometimes surprising Columbia by jumping through the line. Kaw and Pfann also worked the forward pass nicely on occasions, but generally speaking, the passing game did not figure much in Cornell's attack, which was rooted in straight football, simple formations executed with precision, smartness, speed, and great driving force. Ramsey proved his useful self in line-playing and once made a seventeen-yard run from kick formation. Inside of tackle, however, Columbia was more formidable than Dartmouth; hence the running attack, sometimes outside of tackle, developing into a wide end run, and sometimes cutting in, was the favorite method of offense.

A seventy-yard run by Kaw was the most spectacular play of the day. In the second period he caught a punt on his fifteen-yard line. Juggling it for a perilous moment, he dashed for the south side line and eluding tackler after tackler reached the ten-yard line before Koppisch brought him to earth. Pfann reeled off several thirty-yard runs and Olney and Ramsey also figured in nice gains.

Among the Cornell high spots as seen by the newspaper men was the nice play of the ends, whose down-field work had shown marked improvement in a week; and fine tackle play by Captain Dodge, whose towering figure commanded the whole right side of the scrimmage line.

The impression this team made on one is shown in the following paragraph from Samuel J. Brookman's story in the New York Herald:

"Fast, cunning, well drilled, and possessed of a smashing attack, the Ithacans lived up to all the flattering things that had been said of them. Twenty thousand enthusiasts were thrilled by the speed and dash of the backs, their swift darts off tackle behind excellent interference, their ability to sustain the attack and carry on for half and three-fourths the length of the field, the adeptness of the forwards in opening the gaps and the general alertness of the team, both on the defense and offense. The team had power and it had smoothness of action; it had confidence and it had football sense. It was, in fact, the best team Cornell has had in many a season."

Cornell scored three touchdowns in the first period, two in the second, and one in the fourth. The team had the ball on Columbia's ten-yard line at the end of the second period and was on Columbia's ten-yard line when final time was called.

Columbia rallied gamely in the third

and fourth periods, holding Cornell for downs thrice, once within the ten-yard line, and making two first downs by rushing, a total of three for the game. The New Yorkers also saved themselves from a shut-out and gave their loyal supporters who had never wavered even when the steam roller was functioning at its highest power, a real thrill.

In the last period, with the ball on Cornell's forty-yard line, Carey, who had been substituted for Ramsey, hurled a forward pass down the field. Applebaum intercepted it and ran thirty yards before Cassidy brought him to earth on the nine-yard line. Three rushes failed, but a pass, Stephano to Burt, which the latter caught behind the goal line, resulted in a touch-down.

About twenty thousand persons saw the game, the great majority partisans of Cornell and Columbia. Rim Berry's Mr. John T. Alumnus of Cornell wanted to see what there was about all this newspaper talk of the revival of the Big Red team and he was out in force, by the thousands from the greater city and the whole metropolitan district. He saw; in the language of "Sport Stuff" John T. got an eyeful. Philadelphia next stop.

A brief summary of the game follows:

Cornell's first touchdown came after a steady march of seventy-two yards during which Kaw contributed gains of five and ten yards consistently and Pfann one dash of twenty-six yards. The Cornell backs were going through at will at that stage and Columbia scarcely had an opportunity to quit the defensive. Kaw was catapulted over for the first touchdown and he also scored the second about three minutes later after an advance of fifty-eight yards in seven rushes. The backs were receiving perfect interference in their attack and were making first down after first down. Of the fifty-eight yards gained in the second march to the Columbia goal Kaw was responsible for nearly forty, one of his end runs netting nearly forty, and another twelve.

The third opportunity came when Pfann intercepted a forward pass on Columbia's thirty-five-yard line. Two penalties for offside cost Columbia ten yards and a number of short gains in which Kaw figured conspicuously did the rest. Kaw went over for his third touchdown shortly before his the first season closed.

The advance for the fourth touchdown started from Cornell's thirty-five-yard line and went on uninterrupted to the goal line. Pfann's seventeen-yard gain off left tackle was a factor, and so was Kaw's sixteen-yard dash that brought the ball to Columbia's ten-yard line. Columbia braced and fought off two thrusts, but Ramsey finally found a hole in the left side of the line and darted through for a touchdown.

Before Columbia had registered its initial first down of the game Cornell had added a fifth touchdown to its total on

Kaw's seventy-five-yard run already described. Immediately after that De Stefano ran back Dodge's kickoff to the twenty-nine-yard line, and Koppisch and Moszczenski gained eleven yards in two rushes. Two forward passes failed and Columbia was forced to punt to Cornell's thirty-seven-yard line, from which point Cornell advanced the ball fifty-three yards to Columbia's ten-yard line when the half ended.

Cornell continued to find holes in Columbia's line in the third period, but was unable to sustain its attack as it had done in the first half. The Blue and White line was offering far greater resistance and penalties set the team back. Toward the end of the period Cornell launched another offensive and with the aid of two forward passes in which Kaw, Olney and Cassidy figured, brought the ball to Columbia's ten-yard-line as the period closed.

Upon resuming play, Cornell rushed the ball to Columbia's one-yard-line in two tries. The third play was a forward pass that grounded. Then Cornell was guilty of offside play and lost five yards. Olney tried to get through the line on the last down, but he was thrown without gain and the ball went to Columbia on downs. Failing to make any headway, Columbia punted to the forty-yard-line, where again Cornell was forced to yield the ball on downs. Then followed another punt and another Cornell advance, this time for sixty-three yards for the sixth touchdown, the final play being an eighteen yard end run by Kaw. How Columbia made its only score soon after has already been told. The lineup:

Columbia		Cornell	
Kienninger.....	L.E.....	Cassidy	
Meyer.....	L.F.....	Hanson	
Walder.....	L.G.....	Brayman	
Blaine.....	C.....	Brayton	
Korn.....	R.G.....	Jones	
Calloway.....	R.T.....	Dodge	
Johnson.....	R.E.....	Munns	
Anderson.....	Q.B.....	Pfann	
Moszczenski.....	L.H.....	Ramsey	
Koppisch.....	R.H.....	Kaw	
De Stefano.....	F.B.....	Olney	

Score by periods—

Columbia.....	0	0	0	7—7
Cornell.....	21	13	0	7—41

Touchdowns: Kaw (5), Ramsey (1), Burt (1). Goals from touchdowns—Hanson (2), Dodge (3).

Substitutions: Cornell, Sundstrom for Hanson, Buckley for Cassidy, Guinlock for Munns, Carey for Ramsey. Columbia, Modarelli for Meyer, Gibb for Walder, Reilly for Kienninger, Burt for Anderson, Walder for Gibb, Miller for Walder, Fargo for Korn, Anderson for Burt, Burt for Anderson, Applebaum for Moszczenski.

Referee: Carl A. Reed, Springfield. Umpire: R. W. Maxwell, Swarthmore. Linesman: J. C. McDonald, Brown. Field judge: L. O. Kirberger, W. and J. Time of periods: 15 minutes.

Second Cross-Country Victory

The cross-country team won another impressive victory last Saturday, defeating Harvard over a six-mile course at Belmont, Massachusetts, by a score of

29 to 87. Jack Moakley's protégés barely missed making another perfect score, six Cornell runners crossing the line before the first Harvard man finished. In this race seven men on each team counted. Harvard sent Burke across in seventh place. The eighth man to finish was a Cornelian.

The race gave further convincing demonstration that Coach Moakley has developed this year a finely balanced, uniformly strong team. This time there was no blanket finish, like at Syracuse, when four Cornellians tied for first place. But the outcome at Belmont was just as impressive. Four-fifths of a second separated Robert E. Brown, the winner, from Captain Charles C. Carter, who finished fifth. And Irish, the sixth Cornell runner to cross the line, came in one and four-fifths second behind Brown, one second behind Carter. It was a fine demonstration of team strength.

It is only fair to state that Captain Bemis and Lutz, two of Harvard's best runners, were unable to enter the meet.

For the first two miles Burke of Harvard and Irish of Cornell alternated at setting the pace. In the next two miles the Cornell pack drew up and at the four-mile mark Robert Brown, N. P. Brown, Richman, and Miske were well in front. Irish and Burke followed them. Captain C. C. Carter remained well behind the pack in the fore part of the race in order to pace and encourage some of the younger and newer Cornell runners who had difficulty in finding themselves over the rough going. Coming into the last rush, however, he pulled away from his trailing team-mates, passed several Harvard runners, and finished in fifth place only a few yards behind the flying leaders. R. E. Brown came in first, N. P. Brown was a yard behind him, then came Richman, and then Miske and Carter on even terms. Irish was followed over the line by Burke and then E. A. Gordon of Cornell finished completing the team score. Ward of Cornell finished tenth and Williams, Vandevoort, and Greenberg, entered for the experience of varsity competition, also ran creditably.

R. E. Brown's time for the six-mile course was 34 minutes 34 4-5 seconds.

Soccer Team Wins

The soccer team won another victory last Saturday defeating Haverford on its own field by a score of 3 to 0. Following close upon the victory over Yale at Ithaca the game proved that Coach Nicholas Bawlf is meeting with considerable success in developing a strong soccer team this year. Haverford had a skillful passing and kicking game, but Cornell's close guarding broke up attack after attack.

In the opening few minutes Cornell developed a vigorous offensive, Smith soon making a goal. Toward the end of the half Righter scored another after some clever combination passing. Haver-

ford forced the ball into Cornell territory in much of the second half but toward the end of the game Elli evaded his guards and carried the ball down for a score. The line-up:

Cornell (3)	Haverford (0)
Molinet.....G.....	Wilbur
O'Connor.....F.B.....	Fisher
Fates.....F.B.....	Knowlton
Thompson.....L.H.....	Huntsicker
Cilloniz.....C.H.....	Longstreth
Qwong.....R.H.....	Bucknell
Cook.....O.L.....	McKinley
Smith.....I.L.....	Hoag
Elli.....C.....	Snader
Rosseau.....I.R.....	Nieh
Righter.....O.R.....	Ganney
Goals: Cornell, Smith, Righter, Elli.	
Substitutions: Cornell, Crabtree for Fates, Meyer for Thompson. Time of halves: fifteen minutes.	

Frosh Defeat Columbia

The freshman football team defeated the Columbia freshman team on Schoellkopf Field Saturday afternoon by the score of 14 to 0. Neither team scored in the first two periods, but in the third, Richardson scored a touchdown after a steady drive down the field, and a blocked kick. Another drive in the fourth period brought another touchdown, Richardson scoring. The Cornell yearlings made fifteen first downs to one for Columbia, and the Cornell goal line was never in danger.

AS USUAL, the charity vaudeville, given in Ithaca on November 1 and 2 for the benefit of the Infantile Paralysis Reconstruction Home, drew much of its talent from undergraduates on the Hill. In separate acts, leading parts in the musical comedy, and in the chorus they were prominent.

THE CORNELL Women's Glee Club has recently accepted thirty-eight new members.

THREE BOXES of warm clothing have been sent from Ithaca to the Grenfell Mission in Laborador as a result of a campaign recently ended.

CREW REGISTRATION is greater than ever before, with a total of 383 candidates, almost a hundred more than in 1920. A further increase is expected after football season.

THE ITHACA Rotary Club entertained "Uncle Pete" Smith at a farewell luncheon on November 2 at which Harry G. Stutz '07, for the city, and Professor Charles L. Durham '99, for the Hill, were the speakers. "Uncle Pete" said he preferred to work, despite his age, rather than to settle down and die.

A CINDER TRACK just north of the Old Armory is nearly ready for use by wrestlers, boxers, and others working in the building. The lawn on which the forms for a skating rink were built last winter has been graded level by the use of dirt brought from the new Chemistry Laboratory, and the new track encircles it.

ALUMNI NOTES

'75 AB—Colonel Henry W. Sackett, one of the leading authorities on the law of libel in America, and for thirty years counsel of the New York *Tribune*, has been appointed a lecturer in the School of Journalism at Columbia and will give a course on the law of libel.

'77—Harriet T. Barto, Illinois '16, daughter of the late Daniel O. Barto, is assistant professor of dietetics in the home economics department of the University of Illinois. Margaret Barto, also a graduate of Illinois and formerly instructor in physical education at that University, has now become assistant professor of physical education at the University of Kansas.

'89—Professor Warren P. Laird, of the department of architecture of the University of Pennsylvania, is to deliver on February 7, in the Academy Forum series of lectures given by Pennsylvania professors in the Academy of Music in Philadelphia, an illustrated lecture on "An Undiscovered Country," in which he will propound the question, "Is the world of art a realm of mystery, accessible only to the initiated few, or may it be understood and enjoyed by those who lack the special training of the artist?" and will then try to answer the question in a study of architecture.

'92 PhB—George W. Haynes is cashier of the Fremont Savings Bank, Fremont, Ohio.

'97 ME—Thomas D. Weaver is mechanical engineer of the Triplex pump department of the Prescott Company, Menominee, Mich. He lives at 1004 Stephenson Avenue.

'01 PhD—Dr. George W. Stewart, since 1909 head of the department of physics at the State University of Iowa, is this year acting dean of the Graduate School of that institution. During the second semester of last year he was a member of the Division of Educational Relations of the National Research Council, employed to investigate the attitude of the smaller Middle Western colleges toward the superior student.

'03 AB—Guernsey J. Borst has resigned from the faculty of Valparaiso University to accept a position as professor of education and director of the department of secretarial science in the Skidmore College for Women, Saratoga Springs, N. Y.
