19. Spectroscopic Studies of the Hydrogen Bond. II. The Shift of the O-H Vibrational Frequency in the Formation of the Hydrogen Bond, R. M. Badger and S. H. Bauer, J. Chem. Phys. 5, 839 (1937).

20. The O-H Band in the Vapors of Some Organic Acids and of Tertiary Amyl Alcohol in the Region χ 9700, S. H. Bauer and R. M. Badger, J. Chem. Phys. 5, 852 (1937).
21. The Structures of the Hydrides of Boron. IV. B_2NH_7 , and $B_3N_3H_6$. The Structure of Dimethylamine, S. H. Bauer, J. Am. Chem. Soc. 60, 525 (1938).
22. The Structure of the Hydrides of Boron. V. Tetraborane B_4H_{10} , and the Pentaborane B_5H_{11} . S. H. Bauer, Abstract of paper presented before AAAS at Indianapolis (1937), J. Chem. Phys. 6, 176 (1938); J. Am. Chem. Soc. 60, 805 (1938).
23. The Density of Energy States in Solids, S. H. Bauer, J. Chem. Phys. 6, 403 (1938).
24. (a) On the Swelling of Coal: A General Review and Progress Report. (b) Theoretical Study of the Process of Swelling and the Plastic Properties of Coal. Distributed as a private publication of the School of M.I., Pennsylvania State College.
25. The Molecular Structure of Hydrogen Fluoride, S. H. Bauer, J. Y. Beach and J. H. Simons, J. Am. Chem. Soc. 61, 19 (1939).
26. Inversion of the Partition Function to Determine the Density of Energy States, S. H. Bauer, J. Chem. Phys. 7, 1097 (1939).
27. The Structure of the Hydrides of Boron. VI. AlB_3H_{12} . J. Y. Beach and S. H. Bauer, J. Am. Chem. Soc. 62, 3440 (1940).
28. The Structures of Methyl Borate and Trimethyl Triborine Trioxane, Interatomic Distances in Boron Compounds, S. H. Bauer and J. Y. Beach, J. Am. Chem. Soc. 63, 1394 (1941).
29. The Structures of Methylenecyclobutane and Hexamethylethane, S. H. Bauer and J. Y. Beach, J. Am. Chem. Soc. 64, 1142 (1942).
30. Structures and Physical Properties of the Hydrides of Boron and of their Derivatives, S. H. Bauer, Chem. Rev. 31, 43 (1942).
31. The Structures of Dimethyl Boron Fluoride and Methyl Boron Difluoride, S. H. Bauer and J. M. Hastings, J. Am. Chem. Soc. 64, 2686 (1942).
32. Voltage Stabilizer for Electron Diffraction Power Supply, S. H. Bauer, J. M. Hastings, and D. P. MacMillan, Rev. Sci. Instr. 14, 30 (1943).
33. Donor-Acceptor Bonding. II. An Electron Diffraction Investigation of the Structure of Dimethyl Ether-Boron Trifluoride, S. H. Bauer, G. R. Finlay, and A. W. Laubengayer, J. Am. Chem. Soc. 65, 889 (1943).
34. An Evaluation of the Sector Technique as Applied to the Diffraction of Electrons by Gases, S. H. Bauer, Phys. Rev. 64, 316 (1943).
35. On the Structure of Dimethyl Ether-Boron Trifluoride, S. H. Bauer, G. R. Finlay, and A. W. Laubengayer, J. Am. Chem. Soc. 67, 339 (1945).
36. Inversion of Low Angle Scattering Data for Particle Size Distribution, S. H. Bauer, J. Chem. Phys. 13, 450 (1945).

37. The Raman and Ultraviolet Absorption Spectra of the Dimethyl Ether-Boron Trifluoride Complex, F. V. Dunderman and S. H. Bauer, 50, 32 (1946).
38. The Structure of the Hydrides of Boron. VII. Beryllium Borohydride BeB_2H_8 . G. Silbiger and S. J. Bauer, J. Am. Chem. Soc. 68, 312 (1946).
39. Comments on Reported Interatomic Distances in Fluorinated Hydrocarbons, S. H. Bauer, published by the A.E.C. as Publication Number MDDC-1494 (1946).
40. An Electron Diffraction Investigation of the Structure of Difluorodiazine, S. H. Bauer, J. Am. Chem. Soc. 69, 3104 (1947).
41. The Structures of the Hydrides of Boron. VIII. Decaborane, G. Silbiger and S. H. Bauer, J. Am. Chem. Soc. 70, 115 (1948).
42. A Compact Multiple way Metal Stopcock, S. H. Bauer, Rev. Sci. Instr. 19, 52 (1948).
43. Boron Hydrides, S. H. Bauer, Encyclopedia of Chemical Technology, 11, 593 (1948).
44. An Evaluation of Quantitative Procedures for the Estimation of Intensities of Diffracted Electrons, Technical Report, Project NR052-040, Task Order I, Contract N6ori213, (Feb. 1, 1949), S. H. Bauer, F. A. Keidel and R. B. Harvey.
45. An Electron Diffraction Investigation of the Structures of Neopentyl Chloride and Silico-Neopentyl Chloride. The Determination of Intensities through the Use of a Rotating Sector, J. M. Hastings and S. H. Bauer, J. Chem. Phys. 18, 13 (1950).
46. The Structure of Uranium Hexafluoride as Determined by the Diffraction of Electrons on the Vapors, S. H. Bauer, J. Chem. Phys. 18, 27 (1950).
47. The Structure of Hexamethylcyclotrisiloxane as Determined by the Diffraction of Electrons on the Vapor, E. H. (Weller) Aggarwal and S. H. Bauer, J. Chem. Phys. 18, 42 (1950).
48. Reanalysis of the Electron Diffraction Data on $\text{Be}(\text{BH}_4)_2$, and $\text{Al}(\text{BH}_4)_3$. S. H. Bauer, J. Am. Chem. Soc. 72, 622 (1950).
49. To Investigate the Structure of Some Boranes and Related Compounds by Electron Diffraction and to Develop Quantitative Procedures for Estimating Electron Diffraction Intensities. Final Report, Project NR052-040, Task Order I, Contract N6ori-213 (March 1, 1950), S. H. Bauer, F. A. Keidel, R. B. Harvey, K. P. Coffin, and J. Bergman.
50. Some Effects of Nozzle Design on the Diffraction of Electrons by Gases, R. B. Harvey, F. A. Keidel, and S. H. Bauer, J. Appl. Phys. 21, 860 (1950).
51. Apparatus for Imposing and Measuring Rapid Pressure Changes in Gases, K. P. Coffin and S. H. Bauer, Rev. Sci. Instr. 23, 115 (1952).
52. Remarks on the Structure of Volatile Fluorides, S. H. Bauer, J. Phys. Chem. 56, 343 (1952).
53. A Hydrodynamic Method for the measurement of Rates of Very Fast Reactions, S. H. Bauer, *L. Farkas Memorial Volume*, Research Council of Israel, Special Publi. No. 1, Jerusalem, p. 95 (1952).

54. Kinetics of Fast Reactions. Technical Report to the Office of Naval Research, Parts I and II, Project NR051-242, Contract N6nr-264(17) (February 1, 1953), S. H. Bauer and Assistants.
55. Thermodynamic and Kinetic Constants for the Diborane-Borine Equilibrium, S. H. Bauer, Allen Shepp, and R. E. McCoy, J. Am. Chem. Soc. 75, 1004 (1953).
56. Thermodynamic Functions for Surfaces of Crystals, S. H. Bauer, J. Am. Chem. Soc. 75, 1004 (1953).
57. Remarks made at the Symposium on Kinetics of Fast Reactions (September 1952), S. H. Bauer, J. Phys. Chem. 57, 390, 402, 424 (1953).
58. Errata: A Hydrodynamic Method for the Measurement of Rates of Very Fast Reactions, S. H. Bauer, J. Chem. Phys. 21, 956 (1953).
59. An Electron Diffraction Study of Disulfur Decafluoride, R. B. Harvey and S. H. Bauer, J. Am. Chem. Soc. 75, 2840 (1953).
60. Energy Exchange in Molecular Collisions, B. Widom and S. H. Bauer, Bull. Am. Phys. Soc. 28, No. 2, p.42 (W7) (1953); J. Chem. Phys. 21, 1670 (1953).
61. On Rate of Approach to Equilibrium, S. H. Bauer, J. Chem. Phys. 21, 1888 (1953).
62. Experimental Molecular Structures, S. H. Bauer and Per Anderson, Ann. Rev. Phys. Chem. 4, 233 (1953).
63. Computation on Entropy Increments in Gaseous Bimolecular Associations. I. Donor-Acceptor Reactions, Allen Shepp and S. H. Bauer, J. Am. Chem. Soc. 76, 265 (1954).
64. Computation of Entropy Increments in Gaseous Bimolecular Associations. II. The Dimerization of Carboxylic Acids, and the Addition of Fluorine to Halogen Fluorides, L. Slutsky and S. H. Bauer, J. Am. Chem. Soc. 76, 270 (1954).
65. An Electron Diffraction Study of Disulfur Decafluorodioxide, R. B. Harvey and S. H. Bauer, J. Am. Chem. Soc. 76, 859 (1954).
66. Relaxation Techniques for Fast Reactions. A Study of the Dissociation of Nitrogen Dioxide, S. H. Bauer and M. R. Gustavson, Disc. Faraday Soc., No. 17, 69 (1954).
67. The Structures of Phenylboron Dichloride, B-trichloroborazole, and N-trimethylborazole as Determined by Electron Diffraction, K. P. Coffin and S. H. Bauer, J. Phys. Chem. 59, 193 (1955).
68. Electron Diffraction Determination of Lattice Parameters of Polycrystalline Specimens Giving Broad Diffraction Peaks. I. Discussion of Technique and Analysis of Errors, G. G. Libowitz and S. H. Bauer, J. Phys. Chem. 59, 209 (1955).
69. Electron Diffraction Determination of Lattice Parameters of Polycrystalline Specimens Giving Broad Diffraction Peaks. II. A Study of Nickel Oxide, G. G. Libowitz and S. H. Bauer, J. Phys. Chem. 59, 214 (1955).
70. An Electron Diffraction Study of Ketene Dimer, Methylketene Dimer, and β -Propiolactone, Judith Bregman and S. H. Bauer, J. Am. Chem. Soc. 77, 1955 (1955).

71. Kinetics of Fast Reactions. Second Technical Report to the office of Naval Research, Project NR051-242, Contract N6onr-264(17) (July 1955), S. H. Bauer and Assistants.
72. Energetics of the Boranes. I. The Heat of Reaction of Diborane with the Methylamines, and of Tetramethyldiborane with Trimethylamine; The Dissociation Energy of Diborane, R. E. McCoy and S. H. Bauer, J. Am. Chem. Soc. 78, 2061 (1956).
73. Energetics of the Boranes. II. Kinetics Consequences of the Diborane-Borane Equilibrium. Comments on the Decomposition of $\text{OC}:\text{BH}_3$. S. H. Bauer, J. Am. Chem. Soc. 78, 5775 (1956).
74. Energetics of the Boranes. III. The Enthalpy and Heat Capacity of Trimethylamine-Trifluoroborane as Determined by the Drop Method, S. H. Bauer and R. E. McCoy, J. Phys. Chem. 60, 1529 (1956).
75. The Structures of Toluene, Phenylsilane, and Diphenyldichlorosilane, F. A. Keidel and S. H. Bauer, J. Chem. Phys. 25, 1218 (1956).
76. Collisional Energy Exchange in Gases. Use of the Spectrophone for Studying Relaxation Processes in Carbon Dioxide, M. E. Jacox and S. H. Bauer, J. Phys. Chem. 61, 833 (1957).
77. on the measurement of Concentration Gradients in Thin Films, S. H. Bauer, J. Colloid Sci. 12, 460 (1957).
78. Review of recent work on the hydrides of boron, "Boron Hydrides and Related Compounds", S. H. Bauer, First Supplementary volume, Encyclopedia of Chemical Technology, cf. No. 41, p. 103 (December, 1957).
79. Energetics of the Boranes. V. Prediction of Heats of Formation. Interconversions of the Boranes, S. H. Bauer, J. Am. Chem. Soc. 80, 294 (1958).
80. A Book Review: *Structure Reports for 1940-41*, S. H. Bauer, J. Am. Chem. Soc. 80, 506 (1958).
81. The Diffraction of Electrons by Thin Films. Final Technical Report to the Office of Naval Research, Project NR356-296, Contract Nonr401(06), (Feb. 1, 1958), S. H. Bauer and Assistants.
82. Length of the Liquid Range for a Pure Substance: A Molecular Interpretation, S. H. Bauer, J. Chem. Ed. 35, 289 (1958).
83. Kinetic Studies of Hydroxyl Radicals in Shock Waves. I. The Decomposition of Water Between 2400°K and 3200°K, S. H. Bauer, G. L. Schott, and R. E. Duff, J. Chem. Phys. 28, 1089 (1958).
84. Entropies and Energies of Dimerization of Alkali Metal Halides, S. H. Bauer, R. M. Diner, and R. F. Porter, J. Chem. Phys. 29, 991 (1958).
85. An Intense Schumann-Runge Source, F. Waelbroeck and S. H. Bauer, J. Opt. Soc. Am. 49, 102 (1959).
86. The Infrared Spectrum of Gaseous Trimethylamine, S. H. Bauer and M. Blander, J. Mol. Spec. 3, 132 (1959).
87. Triatomic Linear Molecules Containing Carbon and Oxygen, Sulfur, Selenium or Tellurium. III. Absolute Intensity of the O_3 , Band of CSe_2 , T. Wentink, Jr. and S. H. Bauer, J. Chem. Phys. 31, 834 (1959).

88. Electron Diffraction Techniques for the Study of Amorphous Systems. National Research Council publication of conference on *Noncrystalline Solids* (Sept. 3-5, 1958), J. Wiley and Sons, p. 53 (1950). Discussions therein by S. H. Bauer.
89. Dipole Moments and Optical Dispersion of Perchlorofluorobutanes, Butadienes, Butenes, and Propylenes, Emile Rutner and S. H. Bauer, J. Am. Chem. Soc. 82, 298 (1960).
90. Kinetics of Reactions in Shock Tubes (including the Kinetics and Production of C. During the Pyrolysis of Ethylene, The Equilibrium Composition of the C/H System at Elevated Temperatures², A survey of the Methods for the Chemical Analysis of Transient Species with Microsecond Resolution, The rate of Dissociation of Cyanogen etc.). Final Technical Report, WADD TR60107, to the Air Force on Contract AF33(616)-3839, Project 7013, Task 70346 (CU 7185). S. H. Bauer and Assistants.
91. The Molecular Structure of Iodine Heptafluoride, R. E. LaVilla and S. H. Bauer, J. Chem. Phys. 33, 182 (1960).
92. Molecular Structure of Lithium Chloride Dimer. Thermodynamic Functions of Li_2X_2 , (X = Cl, Br, I), S. H. Bauer, Tadashi Ino, and R. F. Porter, J. Chem. Phys. 33, 685 (1960).
93. A Survey of the Methods for the Chemical Analysis of Transient Species with Microsecond Resolution, S. H. Bauer, N. C. Rol, and J. H. Kiefer, AGOSRGE Symposium, Proceedings of the conference on "Physical Chemistry in Aerodynamics and Space Flight" (September 1-3, 1959), Pergamon Press, Oxford (1961), p. 118.
94. Electron Diffraction Studies of Gaseous Polyatomic Molecules at High Temperatures. Final Technical Report to the office of Naval Research, Project NR357-393, Contract Nonr-401(29), S. H. Bauer, R. F. Porter, and Tadashi Ino (April 15, 1961).
95. A Study of the Emission Intensities of Cr Lines from Shocked Gases Containing $\text{Cr}(\text{CO})_6$, S. H. Bauer, J. H. Kiefer, and B. E. Loader, Can. J. Chem. 39, 1113 (1961).
96. (Energetics of the Boranes. IV.) Kinetics and mechanisms for Acid-Base Reactions Involving Boranes, S. H. Bauer, Adv. Chem. Series, 32, 88 (1961).
97. Chemical Kinetics: A General Introduction, S. H. Bauer, Special publication of the International Hypersonics Conference by the American Rocket Society, AFOSR, at MIT (Aug. 1961). A Progress in Astronautics and Rocketry, 7, 143-180 (1962).
98. Kinetics of Chemical Reactions in Gases at High Temperatures Utilizing Shock Tube Techniques. (Incorporate papers No. 95, 99, 100, 101, 102, 107, etc.). Final Technical Report to the Air Force, on Contract AF33(616)-6694, Task 70321 (CU7345), S. H. Bauer and Assistants, Aero. Res. Lab. Off. of Aerospace Research, USAF, AR-100, December (1961).
99. The High Temperature Pyrolysis of Ethylene; Kinetics of C_2 Formation, Wing Tsang, S. H. Bauer, and F. Waelbroeck, J. Phys. Chem. 66, 282 (1962).
100. The Dissociation Energy and Rate of Decomposition of C_2N_2 , M. Cowperthwaite, Wing Tsang, and S. H. Bauer, J. Chem. Phys. 36, 1768 (1962).
101. The Estimation of Molecular Parameters of C/H Fragments, M. Cowperthwaite and S. H. Bauer, J. Chem. Phys. 36, 1743 (1962).

102. The Equilibrium Composition of the C/H System at Elevated Temperatures, R. E. Duff and S. H. Bauer, J. Chem. Phys. 36, 1754 (1962).
103. Two book reviews: The Proton in Chemistry by R. P. Bell, Cornell University Press, Ithaca, NY (1959); and Structure and Properties of Thin Films, edited by C. A. Neugebauer, J. B. Newkirk, and D. A. Vermilyea, John Wiley & Sons, Inc., New York, NY (1959), S. H. Bauer, J. Electrochem. Soc. 109, 97C, 117C (1962).
104. Design and Characteristics of a Parallel Incidence Electron Diffraction Apparatus, S. H. Bauer and K. Kimura, J. Phys. Soc. Japan 17, 300305 (1962).
105. Rate of Decomposition of Azomethane in a Shock Tube, George Chiltz, Carl F. Aten, Jr., and S. H. Bauer, J. Phys. Chem. 66, 1426 (1962).
106. Investigation of Condensation Processes Behind Normal Shocks by optical Methods A feasibility Analysis. Preliminary Report to the Air Force under Contract AF 49(648)-716 (CU7356), S. H. Bauer and Y. Timnat, March, 1962.
107. Book Review: Crystallometry, by Terpstra and Codd, Published in J. Am. Chem. Soc. 84, 391 (1962).
108. Book Review: Shock Tubes, by J. K. Wright, Published in the American Scientist, p. 215A (June 1962).
109. Two Book Reviews: Molecular Spectroscopy, by Gordon M. Barow, McGraw Hill, New York, xiii and 318 (1962); and Elementary Introduction to Molecular Spectra, by Børge Bak, Interscience (Wiley), New York, xi and 144 (1962), published in Science 138, 128 (1962).
110. Mechanism for Vibrational Relaxation at High Temperatures, S. H. Bauer and S. C. Tsang, Physics of Fluids 6, 182 (1963).
111. Absorption Spectra at High Temperatures. I. The Ultraviolet Spectra of Shock Heated Cis and Trans 1,2 Dichloroethylene, S. H. Bauer, Helen Kiefer, and N. C. Rol, appeared in the Proc. Ninth Int. Symp. Combustion, Academic Press, New York, 1963, p.81.
112. Studies with a Single-Pulse Shock Tube. I. The Cis-Trans Isomerization of Butene2, A. Lifshitz, S. H. Bauer, and E. L. Resler, Jr., J. Chem. Phys. 38, 2056 (1963).
113. The Mass Spectra of Valence Tautomers, C. Lifshitz and S. H. Bauer, J. Phys. Chem. 67, 1629 (1963).
114. Metal Halide Vapors: Structures and Thermochemistry, S. H. Bauer and R. F. Porter, in MOLTEN SALT CHEMISTRY, ed., M. Blander, Interscience Publ., New York (1964), p. 607.
115. Absorption Spectra at High Temperatures. II. The Ultraviolet Spectra of C₆H₆ and C₆F₆ Kinetics of the Pyrolysis of Benzene, S. H. Bauer and C. F. Aten, Jr., J. Chem. Phys. 39, 1253 (1963).
116. Studies with a Single-Pulse Shock Tube. II. The Thermal Decomposition of Perfluorocyclobutane, A. Lifshitz, H. F. Carroll, and S. H. Bauer, J. Chem. Phys. 39, 1661 (1963).
117. The Rates of Association of Lewis Acids and Bases in the Gas Phase, S. H. Bauer, J. V. Martinez, D. Price, W. J. Jones, and M. Blander, Adv. in Chem. Series (42), BORON-NITROGEN CHEMISTRY, Am. Chem. Soc., 1964, .35.
118. Chemical Kinetics in Shock Tubes: A General Review, S. H. Bauer, Science 141, 867 (1963).

119. The Structure of Gaseous Copper Nitrate as Determined by Electron Diffraction, R. E. La Villa and S. H. Bauer, J. Am. Chem. Soc. 85, 3597 (1963).
120. On the Density-Intensity Calibration in Electron Diffraction Studies, K. Kimura and S. H. Bauer, J. Chem. Phys. 39, 3171 (1963).
121. The Structure of SF₄ and SOF₄ as Determined by Electron Diffraction, K. Kimura and S. H. Bauer, J. Chem. Phys. 39, 3172 (1963).
122. An Electron Diffraction Study of XeF₄, R. K. Bohn, K. Katada, J. V. Martinez, and S. H. Bauer, NOBLE GAS COMPOUNDS, Ed., H. H. Hyman, Chicago University Press (1963), p.238.
123. Studies with a Single-Pulse Shock Tube. III. The Thermal Isomerization of CH₃NC, A. Lifshitz, H. Carroll and S. H. Bauer, J. Am. Chem. Soc. 86, 1488 (1964).
124. The Absorption Spectrum of BH and BD in the vacuum Ultraviolet, S. H. Bauer, G. Herzberg, and J. W. C. Johns, J. Mol. Spectrosc. 13, 256 (1964).
125. Collision Broadening of OH Emission Lines, Measured in the Infrared, S. H. Bauer and J. H. Jaffee, Xth Symp. (International) on Combustion, Mono of Maryland, 1965, p.499.
126. The Ultraviolet Absorption Spectra of Perhalogenated Butadienes (1,3). A Free Electron Study, Emile Rutner and S. H. Bauer, J. Phys. Chem. 68, 1768 (1964).
127. Vibrational Excitation in Some Four-Center Transition States, S. H. Bauer and E. L. Resler, Jr., Science 146, 1045 (1964).
128. Isotope Exchange Rates. I. The Homogeneous Reaction Between NH₃ and D₂, A. Lifshitz, C. Lifshitz, and S. H. Bauer, J. Am. Chem. Soc. 87, 143 (1965).
129. Isotope Exchange Rates. II. The Homogeneous Reaction Between C₂H₂ and D₂, K. Kuratani and S. H. Bauer, J. Am. Chem. Soc. 87, 150 (1965).
130. Thermal Decomposition of ClCN, D. Schofield, W. Tsang, and S. H. Bauer, J. Chem. Phys. 42, 2132 (1965).
131. Physical Chemistry in the Engineering Curriculum, M. A. Paul and S. H. Bauer, J. Chem. Ed. 42, 196 (1965).
132. Shock Waves A Review, S. H. Bauer, Ann. Rev. Phys. Chem. 16, 245 (1965).
133. The Dynamics of Cryosorption Pumping, S. H. Bauer, P. Jeffers, J. Phys. Chem. 69, 3318 (1965).
134. The Condensation of CN in an Expansion Wave, W. S. Watt and S. H. Bauer, 5th Shock Tube Symp.; Bull. Am. Phys. Soc. 10, 1151 (1965), Abs. SP10; J. Chem. Phys. 44, 1387 (1966).
135. Structure of a Transient Dimer of Acetylene, S. H. Bauer and P. Jeffers, J. Am. Chem. Soc. 87, 3278 (1965).

136. Optimized Geometry for Coupling a Mass Spectrometer to a Shock Tube, G. F. Marsters, S. H. Bauer, and E. L. Resler, Jr., 5th International Shock Tube Symp.; Proc. published by U. S. Naval Ord. Lab., Ed., Z. I. Slawsky (1966), Abs. C1, Bull. Am. Chem. Soc. 10, 1144 (1965).
137. An Electron Diffraction Study of Trimethylsilyl iso-Thiocyanate and Trimethylsilyl isoCyanate, K. Kimura, K. Katada, and S. H. Bauer, J. Am. Chem. Soc. 88, 420 (1966).
138. Structures of C_7H_{10} , Valence Tautomers, as Determined by Electron Diffraction, J. F. Chiang and S. H. Bauer, J. Am. Chem. Soc. 88, 416 (1966).
139. The Role of Vibrational Excitation in H/D Exchange: Nascent Molecules at Room Temperature, S. H. Bauer, D. Marshall and T. Baer, J. Am. Chem. Soc. 87, 5514 (1965).
140. Decomposition of $Cr(CO)_6$ in a Shock Wave, W. S. Watt and S. H. Bauer, J. Chem. Phys. 44, 2206 (1966).
141. Isotope Exchange Rates. III. The Homogeneous 4-Center Reaction, H_2 and D_2 , S. H. Bauer and Eugenio Ossa, J. Chem. Phys. 45, 434 (1966).
142. Isotope Exchange Rates. IV. The Homogeneous Reaction Between CH_4 and D_2 , W. S. Watt, Peter Borrell, D. Lewis and S. H. Bauer, J. Chem. Phys. 45, 444 (1966).
143. An Electron Diffraction Study of the Structure of NF_2 and N_2F_4 , R. K. Bohn and S. H. Bauer, Inorg. Chem. 6, 304 (1967).
144. An Electron Diffraction Study of the Structures of cis and trans-Difluorodiazine, R. K. Bohn and S. H. Bauer, Inorg. Chem. 6, 309 (1967).
145. The Molecular Structure of Perfluorodiazirine, J. L. Hencher and S. H. Bauer, J. Am. Chem. Soc. 89, 5527 (1967).
146. The Role of vibrational Excitation in Atom Switching Reactions, S. H. Bauer, AGARD Conf. Proc. No. 12, Recent Advances in Aerothermochemistry; Oslo, 1966, Vol. I, p.47, Ed., I. Glass (1967).
147. Transient Species Generated During the Pyrolysis of Hydrocarbons, S. H. Bauer, 11th Symposium (International) on Combustion, Combustion Institute, Pittsburgh, 1967, p.105.
148. The Structures of C_6 , B_3N_3 and C_3N_3 Ring Compounds, S. H. Bauer, K. Katada, and K. Kimura, Structural Chemistry and Molecular Biology, Eds., A. Rich and N. Davidson (1967), pp.681-697.
149. An Electron Diffraction Study of KrF_2 and Comments on the Structure of XeF_6 W. Harshbarger and S. H. Bauer, J. Am. Chem. Soc. 89, 6466 (1967).
149a Structures of XeF_3H_3 (Kumura)
150. The Molecular Structure of Trimethylenecyclopropane, E. A. Dorko, J. L. Hencher, and S. H. Bauer, Tetrahedron 24, 2425 (1968).
151. The Structures of Norbornane and 1,4-Dichloronorbornane, J. Chiang, C. F. Wilcox, Jr., and S. H. Bauer, J. Am. Chem. Soc. 90, 3149 (1968).
152. On the Mechanism of H/D Exchange in the Homogeneous Reaction $C_2H_2 + D_2$, at Intermediate Temperatures, S. H. Bauer, P. Jeffers, and N. Zevos, J. Phys. Chem. 71, 4412 (1967).

152a unpublished $C_2H_2 + C_2O_2$ with P. Jeffers (1966).

153. Revision of the Structure of SOF_4 , J. L. Hencher, D. W. J. Cruickshank, and S. H. Bauer, J. Chem. Phys. 48, 518 (1968).
153a ED Structure of Zr, Hf, Te Halides, J. V. Martinez, J. F. Chiang, and S. H. Bauer (1967) published)
154. A Single-Pulse Shock Tube Study of the Pyrolysis of Perfluorocarbons and of the Oxidation of Perfluoroethylene, S. H. Bauer, K. C. Hou, and E. L. Resler, Jr., Proc. 6th International Shock Tube Symposium (May 1967), Berichte Ernest-Mach Institute (April 1968), Freiburg (1968), p.504: Abs. E7; Bull. Am. Chem. Soc. 13, 789 (1968). Phys. Fluids 12, (Suppl. 1), 125 (1969).
155. Shock Front Structures A Chemical Kinetics View (Invited paper), 154th ACS Meeting (Sept. 1967), Division of Fuel Chemistry, Preprint Vol. 11, No. 4, pp.5981.
