One Guy Named Larry," produced by the National
Association for Retarded Children, T. Kenny

UNITED FUND DRIVE OVER THE TOP

Congratulations to Mike Dickson, general chairman for the Station's United Fund Drive, and to all the many workers who assisted him on the program. It is with a great deal of pleasure that we announce that with 99+% of the cards returned, the Station has already exceeded its quota of \$2,800 by \$264.00, or 109% of its quota. This was a fine effort on the part of our Station employees, and you might be interested to know that at the Community Chest Kick-Off Banquet held Wednesday evening all five organizations participating in the advance campaign announced a better than 100% dollar intake.

COVER PHOTO

In case you are wondering exactly what this cover photo is, a little explanation is in order. Prudy Hennessy, assistant to Pauline Jennings, Librarian, had an unfortunate accident with her car Wednesday. She pulled into her normal parking spot in the morning in the Jordan Hall lot, put the car in parking gear and also pulled down the emergency brake. A short time later she heard this crash, and looking out our window saw that Prudy's car had, by its own volition, backed right into the tree. No, it didn't go through the tree as the car tracks in this photograph would seem to indicate. In trying to get the car out of its predicament, the rear wheels threw mud some 20 feet behind the car making it appear as if someone had driven a car not around but right through this tree.

CERES CIRCLE MEETS MAY 2

Ceres Circle is holding a men's night on May 2 at the home of Director and Mrs. Donald Barton. The meeting begins at 8 p. m. and the guest speaker is Dr. Robert Doran who will show slides and present a narrative on historical homes in the Finger Lakes area. Mrs. Faust says that husbands are cordially invited to attend what we are sure will be a most interesting meeting. Don't forget that date for Ceres Circle--May 2, 8 p. m., at the Barton home.

FARM RESEARCH BEING REVIEWED

Farm Research, a quarterly publication issued by the combined Geneva and Ithaca Stations, is slated for a review by an outside committee on May 3, 4, and 5. Purpose of this review is to determine how Farm Research can be improved to make it the most effective publication of its kind in the country. Ward W. Konkle, Editor, Agricultural Science Review, Washington, D. C., has been asked to serve as chairman of the three man review committee. The final report will be submitted to the Deans and Directors with follow-up recommendations made by the latter group to the editors of the publication.

VISITORS

Food Science had two foreign visitors recently, both of whom were interested in the Station's work on protein and fermented products. The first was Dr. Ching-Tang Yeh, from Taiwan, whose visit was arranged by Unicef. The second visitor was Dr. Danji Fukushima from the Central Research Institute, Noda-Shi, Chiba-Ken, Japan.

STATION CLUB SCHEDULES ANOTHER NOON SEMINAR

Don't miss the Station Club's noon program on May 5 entitled, "Selling One Guy Named Larry." This is a movie produced by the National Association for Retarded Children and introductory remarks will be made by Tom Kenny, Seed Investigations.

MEETINGS

A. A. Khan and Paul Lippold attended the 50th Annual Meeting of the Federation of American Societies for Experimental Biology at Atlantic City. Dr. Khan, on April 12, also gave a seminar to members of the Ithaca Pomology Department on the, "Effects of cycocel and its analogs on plant growth and development, and their possible mode of action."

Roger Way and John Einset were checking apple plantings in the Hudson Valley Wednesday and Thursday of this week.

About 120 persons attended the Symposium on the Ithaca campus entitled, "Frontiers in Food Research" on April 12-13. Members of our staff participating in this Symposium were Bob Shallenberger, Walt Wilkens, George Saravacos, Jim Moyer, Malcolm Bourne, Willard Robinson, Bob LaBelle, and Dave Hand.

A meeting of the Food Processing Extension Advisory Committee is scheduled for 1:30 p. m. in the conference room of the Food Research Laboratory on April 28.

HEALTH AND HAPPINESS REPORT

Some real good news this issue. Kathleen O'Hara is back working full time in Vegetable Crops. Keith Kimball has returned from a Rochester hospital and is recuperating at home.

On the other side of the ledger, Lucile Holtby has entered Clifton Springs Hospital and Clinic for an operation.

NEW ARRIVAL

Congratulations to the Wendell Roelofs on the birth of a son, Jeffrey Lee, on April 12. Jeff weighed 6 lbs. 10 oz. Marilyn is home and both baby and family are doing superbly.

NOTES OF INTEREST

Willard Crosier believes he set a record of early planting by planting both peas and spring wheat on April 9.

SPECIAL NOTE

Once again we have been asked to make our annual plea about the parking situation between Hedrick and Parrott Halls. PLEASE, ABSOLUTELY NO PARKING OF ANY NON STATION VEHICLE IN THIS AREA. It is essential that Station trucks be able to have easy access to Hedrick Hall and they just do not have it now.
