Faculty Appointed, Promoted Hollister To Be Vice-President

DEAN S. C. Hollister has been appointed by the Board of Trustees to be Vice-president of the University, in charge of University development. He will also continue as Dean of the College of Engineering. Graduate of the University of Wisconsin in 1916, Dean Hollister came to Cornell in 1934 as Director of the School of Civil Engineering from the professorship of structural engineering at Purdue. He had been consultant on Boulder Dam and during the first world war to the US Maritime Commission on design and construction of concrete ships. He was appointed Dean of Engineering in 1937, and under his administration many new members of the Engineering Faculty have been added, the High Voltage Laboratory of Electrical Engineering was built and equipped, the new five-year curriculum in all Engineering Schools was developed, the Graduate School of Aeronautical Engineering was organized, and the Cornell Aeronautical Laboratory in Buffalo was acquired. He also conceived and has been actively engaged in raising money for the new Engineering buildings at the south end of the Campus.

Trustees appointed William R. Sears to be professor of Aeronautical Engineering and director of the Graduate School of Aeronautical Engineering, beginning July 1. Graduate of the University of Minnesota in aeronautical engineering in 1934, he received the PhD in 1938 at California Institute of Technology, where he was instructor in aeronautics and from 1939-41, assistant professor. The last five years, he has been chief aerodynamist of Northrop Aircraft Co. in Los Angeles; is co-author of a book, *The Airplane: Its Components and Materials*.

New Library Director

Director of the University Library, beginning September 1, will be Dr. Stephen A. McCarthy, for the last two years assistant director of libraries at Columbia University. He will succeed University Librarian Otto Kinkeldey, who is now on leave and

will retire in June, and Acting Librarian Elias R. B. Willis. Born in Eden Valley, Minn., in 1908, Director McCarthy received the BA in 1929 at Gonzaga University, Spokane, Wash., the BLS at McGill in 1932, the PhD at University of Chicago in 1941. He was assistant librarian of St. John's University, Collegeville, Minn., in 1934-35, the next year was a reference assistant with the Chicago American, then was for two years librarian of University College at Northwestern, becoming successively, 1937-41, assistant director, associate director, acting director, and director of libraries at the University of Nebraska.

Build Business School Staff

First appointments from outside the University to the staff of the School of Business and Public Administration, to open next fall, are Wallace S. Sayre as professor of Administration and director of student personnel, and William H. Shannon, associate professor of Accounting.

Professor Sayre comes from four years with the OPA in Washington, D. C., first as assistant director of fuel rationing, the last two years as director of personnel. He received the AB at Marshall College, Huntington, W. Va., in 1927, the MA in 1928 and PhD in 1930 at New York University, and taught at NYU from 1929-40. In 1937-38 he was secretary of the New York City Civil Service Commission, and commissioner from 1938-42.

Professor Shannon, CPA since 1933, received the AB in 1928 and the MBA in 1929 at University of Michigan; the PhD at University of Kansas in 1938. He was a member of the school of business administration at Kansas from 1930-42, when he entered the Navy Supply Corps and was assigned as assistant professor of Naval supply in the Harvard graduate school of business administration.

Professors Donald English and John G. B. Hutchins, Economics, will also join the Faculty of the School of Business and Public Administration, of which Professor Paul M. O'Leary,

PhD '29, is Dean, the three retaining also their membership in the Arts and Sciences Faculty.

Other Appointments

Max Black comes as professor of Philosophy from the University of Illinois, where he has been professor since 1940. Born in Baku, Russia, in 1909, he received the BA with honors in mathematics at Cambridge University, England, in 1930, and in 1938 the PhD in mathematics and philosophy at University of London, where he was lecturer in education from 1936-40. He is the author of a book, *The Nature of Mathematics*, and an editor of several philosophical journals.

Appointed to the School of Electrical Engineering are Joseph G. Tarboux '23 as professor and Henry B. Hansteen, associate professor. Professor Tarboux was instructor in Electrical Engineering from 1920-26 and assistant professor, 1926-29; has since been head of the department at University of Tennessee. He came to Cornell in 1920 with the BS in Engineering from Clemson College and two years of engineering experience in industry; received the EE in 1923, MEE in 1926, and PhD in 1937; has worked for New Jersey Public Service Co., Miami Electric Light & Power Co., Alabama Power Co., Westinghouse Electric & Manufacturing Co., and General Electric Co. Professor Hansteen received the EE at Brooklyn Polytechnic Institute in

DEAN HOLLISTER, VICE-PRESIDENT

1924, the MA in 1929 and PhD in 1941 at Columbia; taught at BPI, Columbia, and at CCNY since 1937; was an engineer with Westinghouse Electric Corp. and Brooklyn Edison Co.

Three associate professors are appointed in the College of Agriculture. Professor Edward A. Lutz '31, Public Administration in the Department of Agricultural Economics, came May 1 from directorship of the bureau of business research in the New York State Division of Commerce, which he joined after service in the Navy. He received the BS in 1931, the MBA at Harvard in 1937, and returned to the Graduate School to receive the PhD in 1940. From 1931-33 he was with the Federal Land Bank in Springfield, Mass., was junior economist in the Farm Credit Administration, 1934-36, and from 1940-42 was assistant director of the bureau of planning in the Division of State Planning in Albany. Professor Sedgwick E. Smith, PhD '39, Animal Husbandry, returns to Cornell from four years of research on nutritional physiology in the Agricultural Research Administration, US Department of Agriculture. He received the BS at Penn State in 1935, was with the Bureau of Biological Survey, USDA, from 1939-41 and the Fish and Wildlife Service, Department of the Interior, 1941-42. Professor Alvin A. Johnson joins the Department of Plant Breeding to work especially on introduction and distribution of improved seed for field

crops, with which he has been principally concerned since 1939 as extension specialist at Michigan State College. He received the BS at North Dakota Agricultural College in 1936, the MS at Michigan State College in 1938.

Dr. Robert F. Watson becomes associate professor of Medicine at the Medical College in New York.

New Assistant Professors

Julian C. Smith, Jr. '41 returns to the University, July 1, as assistant professor of Chemical Engineering. Since receiving the BChem in 1941 and the ChemE "with honors" in 1942, he has been an industrial engineer with E. I. du Pont de Nemours & Co. in Wilmington, Del. He is the son of the late Julian C. Smith '00 and Mrs. Smith (Bertha Alexander) '01; brother of Joslyn A. Smith '38. He held a McMullen Scholarship, was a member of the Glee Club and member and manager of the ski team, member of Phi Kappa Phi and Alpha Delta Phi.

Lloyd A. Wood comes from an instructorship at Harvard to become assistant professor of Chemistry. He received the AB at Oberlin in 1936, the PhD at Stanford in 1939, and studied from 1939-41 at the Medical Nobel Institute in Sweden on a fellowship of the American-Scandinavian Foundation.

Walter C. Jacob, PhD '42, is appointed assistant professor of Vegetable Crops at the Long Island Vegetable Research Farm in Riverhead.

At Michigan State College, where he received the BS in 1936, he was AAU 158-pound wrestling champion and while he was in the Graduate School he assisted Coach Walter C. O'Connell '12 with the Varsity wrestlers. He was commissioned ensign in the Naval Training School at the University, was assigned to planning research for the Navy Department, and ordered to inactive duty May 31 as a lieutenant commander.

At the Agricultural Experiment Station at Geneva, Ellsworth H. Wheeler, MS '37, is appointed assistant professor of Entomology, and Morrell T. Vittum becomes assistant professor of Vegetable Crops.

Many are Promoted

Promoted from associate professor to professor are Thomas W. Mackesey, Architecture; James L. Hoard, Chemistry; Knight Biggerstaff, History; Romeyn Y. Thatcher '08, Civil Engineering; True McLean '22 and Burdette K. Northrop '18, Electrical Engineering; Stephen F. Cleary '23, Engineering Drawing; Paul H. Black, Machine Design; Robert F. Chandler, Jr., Soils; W. Marshall Curtiss, PhD '36, Marketing; Irwin C. Gunsalus '35 and Wayne W. Umbreit, Bacteriology; Michael Peech, Soil Science; Kenneth Post, PhD '37, Floriculture; Orilla Wright, Home Economics Extension; and Joseph A. Dye, PhD '25, Physiology in the Veterinary College.

Assistant professors promoted to associate professorships are Simon H. Bauer, Chemistry; James D. Burfoot, Jr., PhD '29, Geology; Robert J. Walker, Mathematics; Thomas A. Ryan '33, Psychology; H. Darks Albright, PhD '36, Speech and Drama; Perry W. Gilbert, PhD '40, Zoology; George Winter, PhD '40, Civil Engineering; Casper L. Cottrell, PhD '28, Electrical Engineering; William E. Mordoff '13, Engineering Drawing; Bartholomew J. Conta, MS '37, and Lawrence T. Wright, Jr., PhD '42, Heat-power Engineering; Roger L. Geer '28, Materials Processing; David Dropkin '33 and Louis L. Otto '33, Mechanical Engineering; Samuel R. Aldrich, Agronomy; Winfred E. Ayres and Vladimir N. Krukovsky, PhD '35, Dairy Industry; Ivan R. Bierly, PhD '43, and Lawrence B. Darrah, PhD '43, Farm Management; Donald J. Bushey and Alfred M. S. Pridham, PhD '33, Ornamental Horticulture; Marlin G. Cline, PhD '42, Soil Science; Mary E. Duthie, Rural Sociology; Clara L. Garrett, Drawing in Agriculture; Iva M. Gross, Extension Service; Louis M. Hurd and Robert C. Ogle, Poultry Husbandry; P. Paul Kellogg '29, Ornithology; George H. M. Lawrence, PhD '39, Botany and Horticulture at the Bailey Hortorium;

STUDENTS WIN RICE SPEAKING CONTEST

Barbara Benisch '49 of Forest Hills, winner of first prize of \$100 in the Elsie Van Buren Rice Public Speaking Contest for students in Home Economics, is congratulated by Professor Cornelius Betten, PhD '06, Entomology, Emeritus, one of the judges. Joan A. Fulton '46 of Scranton, Pa., at Dr. Betten's left, won second prize of \$25. Miss Benisch spoke on "Friendship, the Foundation of World Order;" Miss Fulton, on "The Atomic Bomb Means One World Now." Judges were also Mrs. William D. McMillan (Ruth Rice) '23 (left), who is the daughter of the donor of the prizes, Professor James E. Rice '90, Poultry Husbandry, Emeritus, in memory of Mrs. McMillan's mother; and Mrs. Gertrude Grover (right) of University Radio Station WHCU, daughter of the late Professor Herbert H. Whetzel, Plant Pathology.

Robert B. Musgrave, Field Crops; Leland B. Norton, PhD '34, Insecticidal Chemistry; Kenneth G. Parker, PhD '34, and Howe S. Cunningham, PhD '28, Plant Pathology; W. Arthur Rawlins '30 and Hugh C. Hockett, Entomology; Arless A. Spielman, Animal Husbandry; Robert D. Sweet, PhD '41, Vegetable Crops; Thomas C. Watkins, PhD '39, Economic Entomology; Esther H. Stocks, Mary E. N. Ford, and Virginia True, MFA '36, Home Economics; Charlotte B. Robinson, Home Economics Extension; Malcolm E. Miller '34, Veterinary Anatomy; Dr. Adrian G. Gould, Clinical Medicine; Drs. Jennette Evans '14 and Edward C. Showacre, Preventive Medicine.

At the Geneva Experiment Station, assistant professors promoted to associate professors are Lester C. Anderson, James D. Harlan, and George H. Howe, Pomology; Willard F. Crosier, PhD '32, Seed Investigations; Foster L. Gambrell, Frederick G. Munding, and Laurance A. Carruth, PhD '35, Entomology; Walter O. Gloyer, Plant Pathology; William T. Tapley, Vegetable Crops; and Frank A. Lee, Chemistry.

At the School of Nursing in New York City, Ann V. Lyons and Elizabeth Moser are promoted from assistant professors to associate professors.

Instructors promoted to assistant professors are Kathleen L. Cutlar, MS '43, Home Economics; Fred E. Winch, Jr., MF '37, Forestry; James D. Burke and Charles L. Norton, PhD '44, Animal Husbandry; Henry Dietrich '17, Entomology; Edward C. Raney, PhD '38, Zoology; Frederick L. Marcuse, PhD '42, Psychology; Robert H. Siegfried '25, Engineering Drawing; Walter J. Purcell '25 and Charles R. Otto '37, Engineering Materials.

Describes Laboratory

BROCHURE on the Cornell Aeronautical Laboratory: Its Role in Education and Research, has been published by the University. Text and pictures briefly describe the newly-acquired Laboratory in Buffalo and indicate its importance for research and teaching to the Graduate School of Aeronautical Engineering which the University will open next fall. The booklet lists some of the important research for aviation and allied industries which the Laboratory has accomplished under operation by the Curtiss-Wright Corp. since 1942, and describes its facilities. Alumni may obtain the Aeronautical Laboratory booklet upon request to the Department of Public Information, Morrill Hall, Ithaca.

Intelligence

By *Emerson Hinchliff '14*

We have had some very interesting points of view about Cornell "legacies" expressed in the "Let-
"Legacies" ters" columns. One mis-
Are Assets sive (or missile) says let any sons and daughters of Cornellians in, provided they pass minimum requirements. At the opposite end, another correspondent apparently would base admission primarily, if not entirely, on marks, disregarding all sentiment. A partisan of the first applauds by airmail. A cynic adds another wrinkle: giving "legacy" diplomas. E. B. White tops it off with an horrendous picture of the University being pushed "right into Fall Creek gorge, where it would lie quietly among other dead civilizations that have tried to establish a connection between merit and ancestry."

I have had Cornell sons and daughters in my classes. I remember that one, at least, I had to "bust." Several others were not so "hot." Mostly, however, they were distinct assets to the class, needed, perhaps, by a casual remark I would usually get across publicly, that I expected at least five points better work from so-and-so because of his or her Cornell ancestry. I am, therefore, heartily in favor of Cornell children. In fact, I am disturbed that some Cornell offspring follow their school friends elsewhere to college, instead of exercising leadership and bringing said friends to Ithaca!

* * *

Before I go further, I want to dis-
abuse some minds of the impression
that Cornell alumni prog-
Selection eny are discriminated
Is Careful against, the way Mr. Courtney, according to "Rym" Berry, used to think the Faculty consciously picked on his crews. The folders of legacies have a star prominently affixed to them in the Admissions Office, and no starred candidate is turned down without much soul-searching and prayer. Turned down they are, however, if they are not reasonably up to the competitors' offerings.

This does not mean that the Admission people take, or should take, only what we used to call the "greasy grinds." They don't have to. I have met quite a number of prospective students these last two years, and the number of bright, personality-plus youngsters interested in Cornell who are scholastically in the top 20 per

cent of their schools and who also participate wholeheartedly in athletics or other school activities is phenomenal. I would not turn down any such for a lump who has been unable or unwilling in seventeen years to give any indication that he has a fair chance of even staying off probation in fast company such as that met at Cornell. Not only would he do the University no good, but he might suffer serious harm to his self-confidence should he be allowed in and then "bust." In my opinion, it is better to give him the rude awakening in the shape of a refusal than by a "bust" notice.

* * *

I have been trying to work out a formula to fit the case. It needs an Einstein, because it is a
No Formula case of relativity. If Cor-
Fits All nell has manifestly low standards of admission for any one category, it is quite certain that the persons responsible for highly-gifted children will see that they go elsewhere. The formula I am after is one that would admit alumni children as far down the scale of intellectual ability as it is possible to go without driving away the top-notch children of other alumni.

We certainly don't want only "neurotic Phi Beta Kappa candidates" (not my words), which I have heard that one New England university is afraid it is getting the reputation of attracting exclusively. If I had authority (which, thank God, I haven't), I would, at least this year, turn down a "straight A" boy who could offer nothing but his A's. Also, we must have geographical distribution. We must draw from preparatory schools as well as high schools.

I get enormous satisfaction out of well-run student activities of all kinds, ranging from the Sun through the Dramatic Club to intercollegiate sports. A good part of the hours devoted to them comes from time that would otherwise be spent on diversions, and I think participants in them learn things that are not in books. Their efforts serve to illuminate the lives of their peers; the cohesive effect of successful intercollegiate teams on the studentry is very apparent, for instance. So I would certainly weigh promise in extra-curricular fields along with the A's, the B's, and the occasional C's; but I would just as certainly make marks the common denominator. The sideshow mustn't outshine the main tent!

I am no Einstein, so I can't work out a fixed formula. If I were to pick a figure out of the air, I would say that the University should favor alumni children by at least 5 per cent in

grades; possibly by ten. One observer suggests that they should be *penalized* 10 per cent, then we wouldn't have any "busting out;" but I stand by my figures!

Dance Club Concert

DANCE Club group of eleven members, directed by May Atherton, Physical Education, presented a spring "Concert in Dance" in the Willard Straight Theater, May 11. The program of original solo and group compositions varied in style and mood. Especially noteworthy were the attractive costumes, evidencing at times a sharp departure from the simplicity of early modern dance.

Miss Atherton performed her solo, "Radiant Passage," accompanied by Professor Robert M. Palmer, Music, who composed the score. Repeated from last year's repertoire were "Widow's Walk," with score composed by Mrs. Cola Heiden, Club accompanist, and which was danced to a recording of a viola solo by Professor John M. Kuypers, Music, with Mrs. Heiden at the piano; and "Our House Was Made Ready," choreographed by Miss Atherton and the score composed by Mrs. Heiden.

Two comedy numbers, "Suburban Rush for the 8:05," interpreted by Gertrude Rivers '47 and Helen Seidman '47, and "Dilemma at a Tea Party," danced by Linda Rannells '48, were well received by the audience. Solo numbers were danced by Maizie Gusakoff '46, who displayed excellent technique in "First Time Blues;" Miss Rivers, who danced to her own recording of "Wayfaring Stranger;" and Miss Seidman in "The House Carpenter." Also on the program were

"Opening Dance," "Blue Tail Fly," and "Song," a poem by Siegfried Sassoon. The Dramatic Club provided the lighting.

The Dance Club gave the same program May 4 at the Syracuse Museum of Fine Arts. Miss Atherton and several members took part in the National Folk Festival in Cleveland, Ohio, May 22-25.

Letters

Subject to the usual restrictions of space and good taste, we shall print letters from subscribers on any side of any subject of interest to Cornellians. The ALUMNI NEWS often may not agree with the sentiments expressed, and disclaims any responsibility beyond that of fostering interest in the University.

Baffled on Trustees

TO THE EDITOR:

Like Rym Berry (in your issue of May 1) I feel frustrated and baffled in attempting to base a discriminating vote for Alumni Trustees upon meagre and spiritless biographies such as are now provided with ballots.

Along with these formal and sterile write-ups, why not have the sponsoring group for each nominee submit over their combined signatures, with Class numerals attached, a statement saying why they think their candidate is good and entitled to a vote? And in addition, might it be well to include, say, three brief letters from other individuals (selected by the candidate or by the sponsoring group) giving each in his own way their views of the candidate's qualifications?

At any rate let us, by all means, have more enlightening information

on which to base votes. This should result both in more intelligent voting and in a larger number of votes cast.

—ROSCOE EDLUND '09

TO ROMEYN BERRY:

Your column in the May 1 issue hit the nail on the head as it so often does. I too felt baffled at the request to "vote for two and no more." Unlike you, I voted for two, and no more, but my selection was made on the eeny, meeny, miny, mo principle.

While I can criticize, I cannot suggest any alternative, but it would seem to me that one more thing could have been done. Some statement could have been made as to why these people were nominated as candidates. The questions that pass through my mind are: Why have they been selected? What qualifications do they possess that makes them worthy of an honor? What changes in the University itself are now taking place concerning which the candidates must make decisions?

I too feel that the old method left a lot to be desired, but this present method is certainly not the answer. Perhaps the real answer lies somewhere between the two.

—RICHARD C. REA '28

'14 Defends "Legacies"

TO EMERSON HINCHCIFF:

Please deal me in on the "legacy" discussion. It is always desirable to hear both sides of a question.

Matt Carey '15, president of the Alumni Fund Council, an authority on alumni relations and what it takes to make a university great, speaks of Cornell in his recently issued bulletin as follows:

"Tradition, an eminent faculty, physical resources and loyal alumni, these are her endowment. None of these alone is most important, yet as the fourth generation of Cornell sons and daughters arrives now on the Campus, one is more than ever aware of the significance of alumni in maintaining the continuity of University life. Cornell owes much to her alumni. To their loyalty and generosity she owes, in large measure, her place in the educational world today. . . ."

Loyal alumni, by their never-failing interest and the increasing volume of their endowments, make possible the acquisition of adequate physical resources and the maintenance of an eminent Faculty. These in turn create tradition and produce more loyal alumni.

There has been no suggestion that Cornell standards be lowered to admit sub-standard Freshmen. Halsted simply pointed out that while some students who take time off from the

DANCE CLUB IN "OUR HOUSE WAS MADE READY"

A movement from the composition by May Atherton (right), Physical Education instructor and director of the Dance Club, with Anne N. Cody '48 of Daytona Beach, Fla., and Carol B. Shapiro '47 of Havana, Cuba. The divan was designed for the Club by Professor Christian Midjo, Fine Arts.

Photo by Marion West

pursuit of simon-pure education may gather no moss in the shape of Phi Beta Kappa keys, they do, nevertheless, gain an enviable polish from extra-curricular activities such as social contact with Faculty members, students and townsfolk, etc. What they lack in erudition finds ample compensation in a broader viewpoint, a more versatile and useful life, and a flair for companionability which endears them to associates in later life as it did to their Classmates. These qualities breed tradition and larger endowments for Cornell.

So, other things being equal, when a kid with Cornell background toes the starting line and is a bit shaky in requirements, think back to your own session with Davy Hoy, spot the lad five or ten points and tell him to get in there and pitch. All well-managed universities are run on this basis.

In taking our Hal Halsted so sharply to task, it may be that Miss Leary '45 has taken on the whole Class of 1914. As anyone will tell you, this is an enterprise with no future whatever! Perhaps it will prove to be just the stimulus needed to awaken our Classmates to the proposition of leading all the Classes in volume of contributions to the Alumni Fund for a second consecutive year. What do you say, 1914ers?

—ARTHUR M. ACHESON '14

Connecticut Women

SPEAKERS at the annual luncheon of the Cornell Women's Club of Western Connecticut, April 27 in Wilton, were Dr. Lucile Allen, University Counselor of Women Students, and Mrs. George H. Hill (Dorothy Lampe) '26. Members attended from Bridgeport, Westport, Norwalk, Darien, and Greenwich, and among the guests was Mrs. Clarence S. Luitweiler (Sarah Holcomb) '27 of Boston, Mass., vice-president of the Federation of Cornell Women's Clubs.

Summer Session

COMPLETE information about the University Summer Session, July 1 to August 9, is contained in the Summer Session Announcement, which may be obtained from the Director, Goldwin Smith Hall.

The Announcement describes the courses offered in Agriculture, Education, Arts and Sciences, Fine Arts, Home Economics, and gives information also about the Graduate School and unit courses in Hotel Administration. It tells of credits and degrees, fees, living accommodations, and opportunities for recreation; has special information for war veterans, and includes an application blank.

Now, in *My Time!*

By *Romeyn Berry*

IT'S interesting these days to sit back in the bleachers without personal responsibility and watch a University prepare itself for what lies ahead. The actual participants can scarcely be expected to grasp what's going on, each being too much occupied with his own individual responsibilities. It takes the old fellows up in the stands—in the University but no longer of it—to detect the strategy, appraise the players, foretell the probable outcome on the basis of what's happened before.

Cornell, in common with kindred foundations across the land, is forced by circumstances not of its own creation to expand its academic horizons, its physical plant, and the number of its students. After the first two or three years, there may be expected a recession from the early peaks, but the chances are we'll never go back to our former comfortable dimensions. Whether we like it or not, we're fated to grow. 1946 seems likely to become a year from which subsequent events are dated, like 1066, 1492, and 1776.

Everywhere one hears talk and sees signs of the extraordinary efforts that are being made to house the horde that is expected to descend upon us. But so far, we've picked up no mention in the Quadrangle of just how or where we're going to get the additional teaching staff to take care of them, although the matter is doubtless receiving prayerful consideration in high places.

And it is, of course, the crux of the whole business. You can dilute your student body with vast numbers of newcomers, lodge them hit or miss, but you can't, without grave danger, recruit a Faculty from scrub stock to meet emergencies.

Building up and keeping a University Faculty seems to have many points in common with creating a racing stable. If you have unlimited resources, it's possible to go into the competitive market and purchase horses of demonstrated speed and ability. But that method is expensive and seldom satisfactory. Continuing success in

either venture is more apt to spring from the judicious breeding and handling of your own foals, from the intelligent selection and purchase of likely yearlings from competing stables. A youngster with good blood lines, promising conformation, and a whispered reputation for speed in early morning time-trials can often be picked up at a bargain. But once let him win a race or two, and the price becomes prohibitive.

Hold and train your own best colts; pick up the best of the young stock from other stables while they're cheap. That is commonly regarded as the secret of success in building up either a racing stable or a University Faculty.

Anybody can see the points of a horse after he's won the Kentucky Derby and the Preakness. But those same points were there all the time when he was an awkward yearling who could have been bought for \$500. Somebody in a University, somebody in a racing stable, has got to have an eye for a young horse if the colors of either or both institutions are to be kept up in front, year after year.

President Adams must have had such an eye. The consulship of Charles Kendall Adams was short (1885-92) and uncelebrated in the annals of Cornell. It saw no striking episode; no physical expansion. And yet it was in that brief period that there were brought to Ithaca, or brought forward there, a group of men, most of them young and with their reputations yet to be made, who formed the backbone of the Cornell Faculty for the next quarter of a century and caused that period to glisten.

You can get along with flimsy stables if your stalls are filled with such promising young stock as President Adams picked up as he went about. Liberty Hyde Bailey, Jacob Gould Schurman, Benjamin Ide Wheeler, Jeremiah Whipple Jenks, Robert H. Thurston, Walter F. Willcox, Edward Bradford Titchener, Charles Evans Hughes, Charles H. Hull, Will Strunk, Jr., George Ernest Merriitt, Edward H. Woodruff, and on and on!

I wonder whatever became of Charles Kendall Adams?

Win Golf Championship

VARSITY baseball team and crew, unbeaten in early starts, were defeated in mid-May, but the golf team, also undefeated, capped its season by winning the Eastern Intercollegiate Golf Association championship at Annapolis, Md., May 18.

By the margin of a single stroke, Cornell topped favored Princeton in the six-man, medal-score competition with 1005. Princeton posted 1006, US Military Academy 1014, US Naval Academy 1016, Virginia 1037, Dartmouth 1049, and Lafayette 1092.

The morning round was played in good weather, with the Naval Academy golfers taking the lead. The afternoon round was played in a violent rainstorm, in which the Cornell golfers played consistently to finish on top; the first time Cornell has ever won the links title.

Some of the players left to catch a train before the outcome was known, but Coach George Hall and the No. 1 player, Arthur H. Bishop, Jr. '46 of Syracuse, stayed at the course in the event a "sudden death" playoff should be required between Bishop and Princeton's No. 1, Campbell. But Princeton missed a team tie by a stroke, and the playoff of the leading players was not needed.

Campbell was the meet's individual champion, with 151 for the eighteen holes. John L. Sheary '49 of Troy topped the Cornell scorers with 158. Other scores: Bishop 165; William D. P. Carey, Jr. '47 of Hutchinson, Kans., 167; William O. Jenks '48, of Cleveland, Ohio, 169; Elwyn H. Frend '50, of Buenos Aires, Arg., 170; and Irving W. Holcomb '45 of Westport, Conn., 176.

The intercollegiate triumph came one week after Cornell defeated Colgate, 7-2, at Hamilton for its second straight victory. Carey and Sheary won 3 points in the first foursome and Frend and Bishop 3 points in the second. Jenks won a singles match, but Holcomb lost in singles and Jenks and Holcomb dropped a best-ball decision.

Princeton Takes Two

BASEBALL team made it three in a row by defeating Seton Hall, 5-1, on Hoy Field May 8, then had its May 11 game with Colgate at Hamilton rained out.

But the team couldn't keep up the pace on a three-game trip to New

Jersey. At South Orange May 17, Seton Hall won the return engagement, 13-0, and at Princeton May 20, Princeton won two Eastern Intercollegiate League contests, 1-0 and 3-0. The Princeton games were originally scheduled for May 18, but rain interfered, and the Cornell squad stayed there and played Monday.

In the nine-inning Seton Hall game on Hoy Field, three pitchers—Pearne W. Billings '44, Glen L. McAvoy '49, and William J. Langan, USNR—held the visitors to four hits, with Billings receiving credit for the victory.

Coach Mose P. Quinn made several changes in the lineup, putting Robert J. Hirsch '47 in as catcher in place of Francis D. Nolan '49; Arnold R. Kelly '49 at first in place of James P. Troutner '48; and Co-captain Edward S. Steitz '43 at second base, replacing Roy A. Porter '48. The combination clicked. Steitz made two hits in four trips to the plate and drove in two runs. William C. Arrison '48, left fielder, hit a triple in the fifth inning.

It was a different story at South Orange. Tote, who appeared only as an unsuccessful pinch-hitter on Hoy Field and who, the next day, pitched Seton Hall to a 4-2 victory over Ithaca College on Percy Field, held Cornell to four hits and shut them out. He and his mates collected sixteen hits off Billings, Jeffrey T. Davis '50, and Charles F. P. Berman '46,

and took full advantage of six Cornell errors.

Coach Quinn saved his better pitchers for the Princeton double-header. Langan gave only four hits in the first seven-inning game, but Supple turned in a three-hitter for the Tigers. Princeton bunched two hits for the lone and winning run in the third inning.

Langan started the second seven-inning game and lasted five frames. But he was up against even tougher hurling competition as Clemen of Princeton turned in a no-hitter. Only one Cornell player, Arrison, reached first base; on a walk. Princeton made five hits off Langan, one off Berman, who worked one inning. Langan was charged with both defeats.

The standing of the Eastern Intercollegiate League teams as of May 20:

	W	L	PC
Yale	4	0	1.000
Columbia	5	3	.625
Princeton	3	3	.500
Pennsylvania	1	1	.500
Cornell	1	2	.333
Dartmouth	1	5	.167

Crews Lose

VARSITY crew, rated one of the favorites from its showing on the Charles River May 4, when it defeated Harvard, Princeton, and MIT, placed fifth in a nine-crew race on the Severn River at Annapolis, May 11.

Wisconsin, winning its first important rowing victory in decades, was timed in 9:12.8 for the 1¾ mile course.

Cornell started out at a low beat, under 30, and held it for most of the course. Wisconsin, rowing at 35 nearly all the way, pulled into the lead and held it. The finish was close, with the US Naval Academy second, Columbia third, Rutgers fourth, Pennsylvania sixth, Princeton seventh, MIT eighth, and Harvard ninth.

In the Junior Varsity race, Cornell was a close second to Princeton.

One week later the Freshman crew made the trip to Annapolis and lost to the Naval Academy by 2½ lengths over the same course.

The 150-pound crew opened its season at Boston May 11, placing third in a field of five. Harvard won, Pennsylvania was second, Princeton fourth, and MIT fifth.

On Cayuga Inlet May 18, the lightweight oarsmen covered a mile in 5:23 to defeat Technical High School of Buffalo by three lengths. The second Freshman crew defeated the Junior Varsity lightweights by a deck, with Lafayette High School of Buffalo third. The Freshmen were timed in 5:30 for the same course.

Cornell has tentatively accepted an invitation to row in an intercollegiate

Scores of the Teams

regatta on Lake Washington at Seattle, June 22. Examinations will end June 20 and the Cornell Varsity crew will fly west. University of Washington, frequent winner of the Poughkeepsie regatta in recent years, also invited Princeton, Yale, Harvard, Columbia, MIT, Naval Academy, Wisconsin, California, and the University of British Columbia. The Poughkeepsie regatta will be resumed in 1947.

Track Team Seventh

WITH the meet staged in intermittent rain and with the track heavy, the track team defeated Princeton, 82½-52½, on Schoellkopf Field, May 11.

One week later, Cornell placed seventh in the Heptagonal Games at Princeton, as the US Military Academy regained the title it won in 1944 and did not defend last year. The team scores: Military Academy 56, Naval Academy 51½, Pennsylvania 38½, Dartmouth 36¾, Harvard 22½, Yale 17, Cornell 8¾, Princeton 7, Columbia 2.

Elmer L. Robinson '47 placed fourth in the two-mile run, William S. Owen, Jr. '48 was fourth in the broad jump with 22 feet 2½ inches, and Richard A. McCall '48 was fourth in the 100-yard dash. Best showing was made by the 440-yard relay team of McCall, William L. North '49, Owen, and Jay Salzman '49, which finished third.

In the Princeton meet, McCall, North, Dean E. Schmidt '49, and Daniel M. Kelley, USNR, were top scorers with 8 points apiece. McCall won the 220-yard dash and was second in the 100-yard sprint, North won the 220-yard low hurdles and placed second in the 120-yard highs, Schmidt won the mile run and finished second in the 880-yard run, and Kelley captured the half-mile after finishing second in the 440.

James M. Hartshorne '46 competed in three events and counted in each: second in the 220-yard low hurdles and high jump, and third in the broad jump.

Tennis Wins, Loses

TENNIS team won one match, lost two, and was unable to finish a fourth because of rain.

Princeton scored an 8-1 victory on the Cascadilla Courts May 8, with six of the matches going into extra sets. John V. Smith '46 and Rodgers H. Heiss '49 scored the single point with a victory in doubles.

Against Pennsylvania on the same courts May 11, Cornell and the visitors split the six singles matches and Cornell won the first set in each of

the three doubles contests when rain ended play.

Cornell traveled to Hamilton May 15 and defeated Colgate, 8-1. Smith, Heiss, Hollis D. Young '46, Gordon R. Dingle '47, David F. Potter '47, and John P. Gnaedinger '46 won singles matches. Smith and Heiss, Dingle and Gnaedinger scored in doubles.

In an Eastern Intercollegiate Tennis Association match at New York City May 18, Columbia nosed out Cornell, 5-4.

Lacrosse Loses Two

LACROSSE team lost two more games, bowing to the Military Academy, 12-2, on Alumni Field May 11 and to the Naval Academy, 25-4, at Annapolis, May 18.

Elias W. Bartholow '44 and Edward J. Best '47 scored in Ithaca.

Football Practice Ends

WHITES defeated the Reds, 14-7, on Schoellkopf Field May 18 as five weeks of spring football practice ended. Coach Edward C. McKeever was a sideline spectator as the rival teams played under the direction of the assistant coaches.

White touchdowns were made by Harold H. Hargrave '45 of Elmira, right end, and Winfred B. Wright '45 of Freeport. Hargrave scored on a thirty-yard pass from Robert T. Dean '49 of Bloomington, Ind. Wright scored the other from three yards out. Dean placekicked both points after the touchdowns.

The Red score was made from the one-yard line by Ralph R. Barnard, USNR, but Bernard S. Babula '50 of Green Ridge, Pa., missed the extra point.

McKeever said, "we'll be better than we were last year. And so will everyone else! Cornell will be stronger at every position, definitely."

For the Record

MORE than 2,000 spectators were in Barton Hall May 8 as Bobby Riggs, world's professional tennis champion, defeated Don Budge, 7-5, 4-6, 6-3. The two are on a cross-country tour, and the victory was Riggs's nineteenth in thirty-five matches with Budge. Wayne Sabin and John Faunce, the other members of the troupe, lost a set in doubles to Riggs and Budge, and Sabin defeated Faunce in one set of singles.

J. G. White Prize of \$100 for excellence in English to a Spanish-speaking student goes this year to Gonzala Raga-Mendoza, Senior in Agriculture from Barquisimeto, Venezuela.

Future Athletics Fee

STUDENT Council, by its president, Richard L. O'Connell '47, published an open letter to the Board of Trustees in the Bulletin just before the Board met in Ithaca:

"The Student Council of Cornell University upon tabulation of the results of the referendum held in the fall term refer the matter of a University Athletic Fee, that will give every undergraduate student admission to all home athletic events, to the Board of Trustees. This fee would be payable with the other fees, due when tuition is paid. The approval of Mr. Kane, the Athletic Director, and Colonel Hospital, of the Military Department, have been received as these two organizations are most immediately affected by such a plan. Therefore, the Student Council strongly urges consideration of this plan."

At recommendation of its executive committee, the Board of Trustees voted to institute a compulsory athletic fee of \$5 a term "to be made effective at such time as the University is able to provide adequate seating facilities at the athletic contests which students will be entitled to attend without additional charge."

For four of the nine home basketball games last winter, ticket sales were stopped before game time, and for at least one game 5,000 persons crowded into Barton Hall where seating capacity had been enlarged to 4,300. This happened with approximately 700 season ticket books sold. Next year, with 9,000 students expected at the University, the basketball court will be moved to run east and west on the Drill Hall floor, to permit erection of more stands along the sides and construction of balconies; but stands or balconies cannot now be obtained because of priorities on materials.

Auburn Women Elect

CORNELL Women's Club of Cayuga County at its annual business meeting elected Mrs. Stanley M. Ridley (Carol Worden) '38, president, succeeding Mrs. Paul E. Newman (Julia Robb) '38. Vice-president is Mrs. John McDermott (Tabitha Close) '25; recording secretary, Mrs. Archibald P. Bradley (Marion Atwater) '28; corresponding secretary, Mrs. David Hopkins (Carolyn Mazur) '38; treasurer, Mrs. Marion Roudabuch (Madeline Holan) '32. Twenty-five members attended the meeting, at Mrs. Bradley's home in Auburn.

The Club will award a scholarship of \$50 to an undergraduate woman in the University next fall, under direction of a committee headed by Mrs. James J. Foley (Helen Leary) '22.

State School Gets Support From Industry and Labor

AMERICAN Design Award of \$1,000 was presented by Lord & Taylor to the School of Industrial and Labor Relations at the University, and accepted by Dean Irving M. Ives, at a luncheon in New York City, May 1. Theme of this year's award luncheon was "Building for Peace." Presenting the award to the Cornell School, Dorothy Shaver, president of Lord & Taylor said:

Last fall, when America needed all hands on deck to reconvert our country from war to peace, thousands of hands, instead, lay idle. This was only a month after armed hostility abroad, but already, national unity had crumbled to bits and the nation was violently torn by conflict, not with the Japanese or Germans, but by battle and bloodshed among Americans. New York City, then, was just beginning to recover from an elevator strike which had paralyzed its commerce. Boats drifted at anchor in the harbor still waiting for striking workers to unload them. The entire nation cringed before the threat of a General Motors and steel strike which would delay reconversion by untold months.

This backdrop of labor-management strife was nothing new. I point out the time, fall, 1945, because it marked the beginning of an experiment designed to change the entire pattern of human relations between capital and labor. It was then that the New York State School of Industrial and Labor Relations opened at Cornell University. The first students ranged in age from sixteen to sixty. Among them were boys and girls fresh from high school, and veterans hopeful that the conflict between men would come to an end.

The founders of the School realized that people must be trained to cope with the problems facing labor and industry just as they must be trained for medicine, law, or business administration. Out of this thought grew the first four-year under-

graduate school in the country conferring the degree of Bachelor of Science in Labor and Industrial Relations. The courses delve into every phase and problem of the present day business world. When the student graduates, he does not have a one-sided story of management's struggle to maintain free enterprise or labor's battle to free the worker from bondage. He has the whole story, so that his point of view is not based on prejudice, but on knowledge and understanding.

And it's not all book learning, either. Faculty members have themselves worked for labor and management, representatives from both groups visit the School to discuss present-day problems with the students. Most important of all, the student is required to alternate his summer vacations working for industry, labor, and the government. But the school does not deal with students alone. It has begun an extension program in which members of the Faculty discuss actual problems with various industrial and labor groups throughout the State.

This School has only been in operation since November, yet already other colleges and universities throughout the country are planning to follow its lead. What it is attempting to do deserves a salute from the whole nation.

Amalgamated Clothing Workers of America, CIO union, had earlier given \$3,000 to the University to further the work of the School of Industrial and Labor Relations.

Besides its program of resident teaching and research, the School has embarked upon significant outside activities under its Director of Extension, Professor Phillips Bradley. Professor Andrew L. Winsor, PhD '29, director of the Cornell Veterans Advisement and Guidance Center, and Horace H. Benson '29, director of the

University Employment Office, are assisting the adult-education program of the Auburn public schools with a course on current problems in personnel management. The School conducted a series of training schools in personnel management at request of the Association of New York Canners, Inc., and has been asked by the Industrial Association of Buffalo to cooperate on a similar institute there. Some twenty specialists in labor education spent two days here in February to develop extension work with labor groups in the State, and the Buffalo American Federation of Labor is arranging for classes to be given there. "The School is increasingly called on for lectures and forums to be conducted by its staff," Director Bradley says. "These requests come from all types of groups including labor unions, personnel associations, and civic organizations throughout the State. It is planned to provide a number of informal activities during the Summer Session in cooperation with various specialized courses being conducted on the Campus."

Tuition Increased

TUITION in all Colleges and Schools of the University at Ithaca except Law was increased by the Trustees at their May meeting, beginning July 1.

For the endowed Colleges and the course in Hotel Administration, tuition will go up from \$200 to \$250 a term, except the Graduate School, where the increase is from \$100 to \$150 a term. The Law School, however, retains tuition of \$200 a term, both for students who are candidates for the LLB and those who are candidates for advanced degrees. For undergraduate students from outside New York State in the State Colleges of Agriculture, Home Economics, Veterinary Medicine and the State School of Industrial and Labor Relations, tuition will increase from \$100 to \$150 a term. Students resident in the State receive free tuition in these divisions.

In the Graduate School, tuition will be waived in full for holders of all permanently-endowed fellowships and scholarships, and on a sliding scale from full tuition to none for graduate assistants and instructors, depending upon the salaries paid to them.

The Trustees also increased the physical recreation fee paid by all students except those in the Graduate School from \$4 to \$5 a term, and the health and Infirmary fee which all students pay from \$10 to \$15 a term. Maximum hospitalization in the Infirmary to which students are entitled without extra charge was increased from one week a term to two.

EMERGENCY BUILDINGS ENCROACH ON SAGE GREEN

Mammoth Quonset hut to accommodate University veterans offices stretches across the Green, from Campus Road to South Avenue. Behind it is seen the roof of the Old Armory and roof and tower of Myron Taylor Hall, with the Navy Gun Shed and Diesel Engineering Laboratory down the slope toward Central Avenue. Another Quonset hut will shortly go up next to this one for temporary offices of the State School of Industrial and Labor Relations.

Photo by Marion Wesp

Professor Loren C. Petry, University Director of Veterans Education, finds that "approximately 85 per cent of the veterans here have sufficient eligibility time under the GI Bill to enable them to have the increased tuition paid by the Government and still graduate. These men will be affected only if they take post-graduate work. The other 15 per cent have insufficient eligibility time to allow for this increase in tuition, and they will be forced to pay for part of their education. Men studying under the Rehabilitation Law will not be affected, since the Government pays the full cost for them."

Under the GI Bill, the Government pays up to \$500 a college year for all regular University expenses, including tuition, fees, and books, for a period not exceeding forty-eight months of instruction which depends upon the time spent in the armed forces. Costs paid in excess of this amount at the veteran's request reduce his eligibility time at the rate of \$2.10 a day.

The University will use its student loan funds to assist deserving veterans who might not otherwise complete their courses, and it is possible that some cash grants may also be made.

Messenger Lectures

UNIVERSITY community demonstrated its interest in the development of atomic energy by the large attendance at the Messenger Lectures in Bailey Hall. Professor J. Robert Oppenheimer, lately of the physics faculties of University of California and California Institute of Technology and director of the atomic bomb project at Los Alamos, N. Mex., was a welcome guest in his six lectures on "Atomic Physics in Civilization" in the two weeks ending May 14.

Introduced by President Edmund E. Day, Dr. Oppenheimer devoted his first lecture to a general discussion of "The Present Crisis: Atomic Weapons." In the next four, he described the nature of atomic energy and recent discoveries in physics which have harnessed this new power. Concluding the series, he spoke on "International Control of Atomic Energy," and advocated an international atomic development authority which would be responsible to disperse the benefits of atomic energy and prevent its abuses. A carefully devised international system of complete control and inspection to prevent any country from over-developing any phase of atomic weapons, he said, would furnish unmistakable warning of war if a nation refused to co-operate. "No nation can have a preponderance of any one phase of atomic operations," he said,

"and it would be up to the international agency to determine how and where the various phases should be located."

Dr. Oppenheimer is a member of the board of consultants to the State Department which is working on the "Report on International Control of Atomic Energy."

Give Babcock Fund

ENDOWMENT of \$26,600 was given to the University in honor of H. Edward Babcock, chairman of the Board of Trustees, at the Board meeting in Ithaca, May 4. Named the H. Edward Babcock Fund for the Promotion of Studies in Nutrition, the sum was given by some twenty donors, including corporations, foundations, and about half the amount by members of the Board of Trustees.

Chairman Babcock is pictured above, with President Edmund E. Day and Trustee Neal D. Becker '05 (right) who surprised the recipient when he presented during the Board meeting an illuminated scroll signed by the donors and describing thus the reason for the gift:

Desiring to testify to our appreciation of the important public service rendered by Howard Edward Babcock, LL.D., as chairman of the Board of Trustees of Cornell University during the critical years 1939-1946, and wishing also to express our regard for his sterling character and amiable qualities, we his associates and friends have jointly established in his honor at Cornell University and endowed in perpetuity The H. Edward Babcock Fund for the Promotion of Studies in Nutrition.

We have designated Nutrition as the subject of these future studies in the hope of reflecting upon them the fame of Mr. Babcock's pioneer work in the exploration of this field of knowledge so essential to the public health.

It is understood that Babcock will direct the disposition by the University of the income of the Fund, which is still being added to.

In his column, "State and Tioga," in the Ithaca Journal, Romeyn Berry '04 says of Babcock, in part:

No one else we know has ever made so many of his fellow citizens jump through hoops they didn't particularly want to jump through and made them like it, as

our neighbor, Ed Babcock. Co-operative buying of farm supplies and selling of farm products, community butchering and processing, food freezing on the farm and in the home; they are all hoops Ed Babcock has held up for the rest of us to jump through to our advantage.

Look at all the freezing boxes that have appeared the last few months and all the people clamoring for freezing boxes they can't get. Just another hoop! Go back a half-dozen years and recall that food freezing—at least the application of it to the individual farm family—was just one of those things that Ed Babcock was fussing with on his place in the Inlet Valley.

Food freezing having been attended to and put behind him, the man is now getting the country hot and bothered about his ever-normal refrigerator. The nation's physical well-being, its serenity and agrarian prosperity, is to be achieved by everybody having better meals, he says. Never mind explaining it, Mr. Babcock. Just hold up your hoop and we'll jump through it. We've got the habit!

But I suspect he really has something there. People don't start wars on a full stomach. The one sure cure for social and economic discontent is porterhouse steak. All that ever stands between the most secure nation and bloody revolution is nine meals. . . .

Kansas City Women

CORNELL Women's Club of Greater Kansas City met for luncheon May 4 at the home of the president, Mrs. Ellsworth L. Filby (Marion Fisher) '19. For the forthcoming year, they elected Mrs. S. A. Burgess (Alice Chase) '14, president; Mrs. Rudolph Hirsch (Maude Martin) '00, vice-president; and Mrs. Frank C. Rayburn (Dorothy Lohmeyer), MS '42, secretary-treasurer.

St. Louis Elects

SECRETARY of the University Edward K. Graham, PhD '38, was guest speaker at the annual dinner of the Cornell Club of St. Louis, Mo., April 24 at the University Club. The dinner was in honor of Franklin W. Olin '85, University Trustee and donor of Olin Hall, but he was unable to attend and sent a message which was read.

R. Harris Cobb '16 was re-elected president of the Club, as was Forrest W. Boecker '34, secretary. James M. Nelson '19 was elected vice-president, and Joseph E. Griesedieck '40 was elected treasurer.

During the day, Graham talked with seniors at John Burroughs School and Country Day School.

Officers and directors of the Club had as their luncheon guest, May 6 at the Monday Club, Director Clifford C. Furnas of the Cornell Aeronautical Laboratory in Buffalo. Dr. Furnas described the work of the Laboratory and its program of research for the aviation industry and as part of the Graduate School of Aeronautical Engineering.

Cornell Alumni News

3 EAST AVENUE, ITHACA, N. Y.

FOUNDED 1899

Published the first and fifteenth of each month except monthly in July, August, and September: twenty-one issues a year.

Owned and published by the Cornell Alumni Association under direction of a committee composed of Phillips Wyman '17, chairman, Birge W. Kinne '16, Clifford S. Bailey '18, John S. Knight '18, and Walter K. Nield '27. Officers of the Alumni Association: William L. Kleitz '15, New York City, president; Emmet J. Murphy '22, Ithaca, secretary-treasurer.

Subscriptions \$4 in U. S. and possessions; foreign, \$4.50. Life subscription, \$75. Single copies, 20 cents. Subscriptions are renewed annually unless cancelled.

Club Honors Hart

CORNELL Club of Michigan added to its distinguished roll of members who have been of special service to the Club the name of Linton Hart '14, retiring president. At the annual meeting May 15, President Hart was presented with an embossed scroll citing his contribution, in part, as follows: "Lint Hart has given unstintingly of his time and his boundless energy. His breadth of vision and long-range view have brought to us an entirely new conception of the potentialities for usefulness with the Cornell Club of Michigan. The impact of his work is being brought to bear on Cornell Clubs throughout the country and no doubt will have an enduring effect on their future activities." The Club has presented similar scrolls in the past to William H. Stratton '88, Morris D. Sample '92, Harrington Place '94, and Matthew Carey '15.

Succeeding Hart, Philip J. Kent '14 was elected president of the Club. Walker L. Cisler '22 is vice-president; L. Irving Woolson '26 is secretary; George S. Jameson '25, treasurer; and John W. Drummond '29, industrial secretary.

"Whooper-upper Cup," given by Carey in 1936 during his term as president of the Club to be presented annually to the member "who has, during the year, made an outstanding

contribution in time, energy, or ideas towards the welfare of the Club," was presented to Drummond "for an outstanding part in revitalizing the Club and tireless behind-the-scenes activity in an eighteen-month program." Committee headed by Carey recommended also that three other names be inscribed on the Cup for past years when its award was overlooked: 1938, to Harold W. Holmes '05 "for the highest percentage of Detroit alumni who were attracted to Club events by the exceptionally broad and active Club program fostered during his year as president; "1939, to Harold Cole '16, for a fine administration as president and continued quiet but effective discharge of many 'chores' contributing to the continuity and development of the Club;" and 1944, to Theodore G. Seemeyer, Jr. '28 "for unusual service as vice-president of the Club and original promotion of attendance at meetings."

Speaker at the annual meeting was University Trustee Maxwell M. Upson '99, chairman of Raymond Concrete Pile Co. He spoke on "Postwar Foreign Business," and told also of experiences of men of his company who were engaged in Government construction on Wake Island, Guam, and Cavite when the Japs landed.

Glee Clubs Sing Again

BAILEY Hall was half-filled Sunday afternoon, May 19, for the first concert by the Glee Clubs of men and women in three years. Reorganized after the war and directed by Professor Paul J. Weaver, Music, about 100 members gave an hour's concert that was greatly enjoyed. Student leader this year is George L. Landon '44 of Ithaca, recently returned from service in the Army Air Forces, and the soloists were Joanne W. Skinner '46, soprano, Roy H. Ohlhorst '46, tenor, and Joseph D. Sells '50, baritone. Climax of the program was the "Chorus of Barbarians" from Borodin's opera, "Prince Igor," led by Professor Weaver and accompanied by Jack Carruth, USNR, assistant University organist. Closing the concert, the combined Clubs sang the "Alma Mater" in a special concert arrangement by the director with a descant for women's voices.

Moakley in New York

RECORD number of alumni attended a buffet supper April 25 at the Cornell Club of New York, in honor of Coach John F. Moakley and Edward E. Conroy '20, FBI director in the Metropolitan District. Introduced by John T. McGovern '00, vice-president of the Club, "Cactus"

Conroy described the typical career of the bank robber, "from juvenile lookout to matriculation into Alcatraz." Mr. Moakley spoke of his long career as track and field coach at the University and of the Cornellians he has known and taught. When he had finished, Walter L. Pate '99, president of the Club, presented him with a testimonial scroll of appreciation for his services to Cornell and to sports, signed by 200 of the guests present. Charles H. Blair '97 and Donald A. Weadon '40, chairman of the entertainment committee, arranged the successful occasion.

Coming Events

SATURDAY, JUNE 8

Ithaca: Tennis, Princeton, Cascadilla Courts, 2

ual meeting, Willard Straight cafe-

teria, 9

World War II memorial service, War

Memorial, 10

Seventy-eighth annual Commencement,

Schoellkopf Field, 11

MONDAY, JULY 1

Ithaca: Summer Session opens

On The Campus and Down the Hill

Parking area back of Bailey Hall has been excavated for the foundation of Savage Hall, which may be started this year, priorities permitting, to house the School of Nutrition offices. Cooperative GLF Exchange gave \$200,000 to the University last year for the building to be named for the late Professor Elmer S. Savage, PhD '11, Animal Husbandry, who died in 1943 and was a pioneer member of the School of Nutrition Faculty. Plans for the \$317,000 building are being drawn by the firm of Skidmore, Owings, & Merrill of which Nathaniel A. Owings '27 is a member. Years ago, the University reservoir was on the knoll the new building will occupy, and the power shovel uncovered at its edge the buried ruins of the old Campus fire station where a hose-cart was kept and volunteers to man it roomed until about 1926.

American Youth for Democracy executive council published a letter in The Cornell Bulletin May 17 suggesting that candidates in the forthcoming Student Council elections state their positions on the tuition increase announced for next fall and on the currently "low wages of Cornell working students," which were stated to average fifty cents an hour. "If a raise in tuition is justifiable, why not a raise in wages?" the letter asks.

Black Diamond of the Lehigh Valley Railroad celebrated the fiftieth anniversary of its maiden trip through Ithaca, May 18. The Railroad celebrated its centennial in April.

Rocket Society, organized last September, has sixty-two members from the Engineering Faculty and students and is building a miniature rocket with which to experiment. Members of a kindred organization of the air, the Pilots Club, flew six planes on a recent Sunday morning to Binghamton for breakfast.

Pi Omicron, honor society for upper-class women in Engineering, has been organized at the University with the blessing of the Dean of Students and Counselor of Women Students, and with Director Fred H. Rhodes, PhD '14, Chemical Engineering, as Faculty adviser. Shirley A. Ogren '47 of Morrisville, Pa., is president; Eve Freyer '47 of Cornwall-on-Hudson, vice-president; and Billie P. Carter '48 of Honolulu, Hawaii, is secretary-treasurer. This is Beta Chapter of a new

organization founded at Syracuse last March. Thirty-five women are now enrolled in the College: fourteen in Chemical Engineering, thirteen in Mechanical Engineering, five in Electrical Engineering, and two in Civil Engineering.

Class of '86 Memorial Prize of \$75 has been awarded to Robert Johnston '43, of Evanston, Ill., formerly in Civil Engineering and returned this year from service with the armed forces to become a Junior in Arts and Sciences. His speech was titled, "Unto the Least of These . . ."

Heifer auctioned at the sale of the Northeastern Aberdeen-Angus Breeders' Association to benefit the Carl E. Ladd Memorial Scholarship Fund was purchased for \$2,000 by Seymour Knox of East Aurora and State Senator Frederic H. Bontecou of Millbrook, and given to the University to be added to the breeding herd. The Fund for scholarships in the College of Agriculture in memory of the late Dean Ladd '08 was thus brought to \$56,000.

Noteworthy in the student art show in Willard Straight Hall were three watercolors and two pencil sketches of Southwest Pacific islands by William B. Kent '43, son of Mrs. Willys P. Kent (Alice Beller) '18 of New York City. Recently a first lieutenant in the Medical Administrative Corps, Kent has returned from forty months in the Army as a Junior in the School of Industrial and Labor Relations.

First awards in the student art show went to Spencer K. Meschter '45 of Glenside, Pa., for his oil, "The Lost Chord;" to Charlotte J. Avers '48 of Brookline, woodcut, "My Mother;" and A. Elizabeth Tilt '48 of Towson, Md., for her watercolor, "Jungle Cat." Judges gave second places to Mrs. Margarete Rahn Cosgrove '46 of Ithaca for her ink drawing, "Fall," and to Elizabeth M. Kennedy '47 of Dayton, Ohio, for her watercolor, "4 A.M.;" third to Evelyn J. Diamond '46 of Staten Island for her wash and ink drawing, "Arabella."

STUDENT COUNCIL has a desk and keeps its records in the office of the Dean of Students, and here the steering committee meets regularly on Tuesdays to plan the public meetings of the Council which are held Wednesdays in Willard Straight Hall.

Charles Collingwood '39, CBS war correspondent who is now reporting the UN Security Council meetings in New York City, brought his bride of three days for a brief visit to Ithaca, May 15. That evening he spoke at the annual dinner of Book and Bowl, and the next he and Mrs. Collingwood were dinner guests of Sigma Delta Chi. Collingwood married Louise Allbritton, alumna of the University of Oklahoma and the Pasadena Playhouse and lead player in motion pictures since 1942, May 13 in New York City. They stayed at the Telluride House while in Ithaca. "Charles Collingwood and the News" is broadcast Saturday evenings at 6:45 on the CBS network.

Controversy over the Ithaca city judgeship was settled by an Appellate Court decision that Bert T. Baker '97, Republican candidate who was elected city judge last fall, could not serve because he is more than seventy years old. May 10, two days after the court decision was handed down, the Common Council confirmed the mayor's appointment of Edward J. Casey '27, who was Democratic runner-up last fall and has been acting city judge, with Judge Baker on leave pending the decision. Aaron G. Mintz '01 was confirmed as acting city judge.

Kermis, student dramatic organization of the Colleges of Agriculture and Home Economics, presented three one-act plays in Goldwin Smith B, May 11. They were "The Bed of Petunias" by Jean L. Latham, AM '30, "Very Naked Boy," and "The Cockle-pfeifer Case" by Barnard W. Hewitt '28 and the late Judson W. Genung '27.

Recognition as the "leading spirit" of the Tompkins County Tuberculosis and Public Health Association was accorded to Dr. H. Herbert Crum '97 in his election as the Association's first honorary president. He has been president for thirteen years and previously served as secretary.

Meeting in Barnes Hall May 20 to reorganize the Cornell Chapter of the Army Reserve Officers Association, brought out nearly 100 students and others, to hear Lieutenant Colonel George R. Pfann '24, Alumni Trustee of the University, and visiting officers of the Association. It is estimated that there are about 750 Reserve officers among students now at the University.

Necrology

'88 ME—**Alfred Henry Eldredge**, January 26, 1946. He was with Swift & Co. for thirty years and had been consulting engineer for the company in New England since his retirement. Mrs. Eldredge lives at 74 Laurel Street, Melrose, Mass. Daughter, Mrs. Rolland M. Huff (Esther Eldredge) '24.

'88—**John Roosa Millard**, president of James Millard & Sons, Inc., Ford dealers, Kingston, April 2, 1945. He lived at 30 Henry Street, Kingston.

'90—**Walter Marsh Bosworth** of Route 5, Box 731, Tacoma, Wash., April 4, 1946. He was in Engineering three years.

'92 ME—**Roswell Carter Williams, Jr.**, member of the council and research associate in entomology at the Academy of Natural Sciences, Philadelphia, Pa., March 7, 1946. After several years with Charles P. Steinmetz in development of three-phase power transmission, he became a partner in J. F. Buchanan & Co., electrical engineers and contractors, Philadelphia, in 1896. Retiring from business in 1918, he was commissioned a captain in Army Ordnance, and was a government member of the board of adjustment at Nitro, W. Va. President of the American Entomological Society for ten years, Williams published numerous papers on the Lepidoptera; two weeks before his death he completed assembling specimens for a map showing the butterflies of America for the June issue of *Holiday*. Mrs. Williams lives at 4537 Pine Street, Philadelphia, Pa.

'93 AB—**Edward Candee Townsend**, who retired in 1936 as Washington State Commissioner of Public Lands after more than thirty years in the engineering department, March 22, 1946, in Wenatchee, Wash. He gathered the plants of New York and Washington and had collections at Cornell, the National Herbarium, Washington, D. C., Washington State College, and the University of Washington. A variety of aster was named "Townsendi" in his honor. He lived at 908 Idaho Street, Wenatchee, Wash.

'96 AB—Mrs. **Mary Kimber Clark**, retired teacher and widow of Frank B. Clark '96, in September, 1945. She taught French for thirty years, first at Fulton High School and later at Nyack High School. She lived at 508 Worth Street, Fulton. Sister, Anna E.

Kimber '02. Daughters, Margaret K. Clark '19 and Mrs. Francis P. Gross, Jr. (Hilda Clark) '22.

'97 BS—**Charles Kenyon Moulton** of 59 Sycamore Avenue, Brockton, Mass., June 14, 1945. He was for many years a high school teacher and principal in New York and Massachusetts, then joined Iroquois Publishing Co in Syracuse. Recently he was a substitute teacher in Brockton.

'02—**George Theodore Ballard**, April 28, 1946, in Utica, where he lived at 12 Westminster Road. After ten years in New York City, he opened an office in Utica in 1917 as a certified public accountant. He was vice-president and assistant treasurer of the New York Central Mutual Fire Insurance Co.

'02 AB—**Fred Huntington Jennings**, chemist and superintendent of the filtration plant of Watertown since 1906, April 7, 1946, in Watertown, where he lived at 1146 Boyd Street. He was also the city's official weather observer. Jennings was a graduate assistant in Chemistry from 1904-06. Daughters, Mrs. Sidney H. Slack (Elizabeth Jennings) '31 and Laura L. Jennings '33, cataloguer at the University Library.

'03—**George Stout Van Wickle**, champion angler and former president of the Cornell Club of Southeastern Florida, April 24, 1946, in Miami, Fla. His were world-record catches of tarpon, snook, and barracuda, and, until a year ago, of trout also, the largest number of titles held at one time by any angler. Before he retired in 1931, he was a construction engineer and manager of a sugar plantation in Puerto Rico. He lived at 6105 North Bay Road, Miami Beach, Fla. Kappa Sigma.

'07 AB—**George Raymond Wilkins** of 57 Arlington Avenue, Caldwell, N. J., April 14, 1946. He was in the real estate business in Buffalo for about twenty-five years. In 1940, he joined the propeller division of Curtiss-Wright Corp., and remained until he became ill about a year ago. Delta Tau Delta.

'08 MD—**Dr. Silas Mercer Moorman** of 140 Wadsworth Avenue, New York City, April 27, 1946.

'10 AM, '20 PhD—**Dr. Major Edward Holmes**, dean of the New York State College of Ceramics at Alfred University, Alfred, since 1932, May 2, 1946, in North Hornell. He was a development engineer with National Carbon Co., US Gypsum Co., and Dolomite, Inc.; chemical director and for a while acting general manager of the

National Lime Association. Before he went to Alfred, he was head of the ceramic engineering department and director of the clay testing and research laboratory at University of Missouri. Alpha Chi Sigma.

'20 AB, '23 MD—**Captain Richard ★ Everest Gove** of Peru, Army Medical Corps, January 26, 1946, at Tilton General Hospital, Fort Dix, N. J. He entered the Medical Corps as a first lieutenant at the outbreak of the war, and in the fall of 1942 went overseas, serving in North Africa and Sicily. Since he returned to the States a year ago, he had been a patient at Tilton General Hospital.

'23—Mrs. **Hannah Marguerite Bartlett** Thompson of Winter Haven, Fla., December 17, 1945, in New York City.

'23—**Stuart Holland Hacker**, attorney, with office at 1420 Forman Building, Los Angeles, Cal., April 21, 1946. Delta Kappa Epsilon.

'25—**Robert Jones Mattern, Jr.**, attorney, November 2, 1945, in Lewistown, Pa.

Cornell Alumni News

'39 BS in AE—**Lieutenant Fred ★ erick Fay Reimers**, USNR, who was reported missing March 31, 1945, aboard the USS Kete, submarine on war patrol in the vicinity of Nansei Shoto which never returned to its base, has been declared dead by the Navy Department. The Kete was last heard from March 20, 1945. Lieutenant Reimers, former captain of the Varsity wrestling team, was superintendent of the Southern Furniture Manufacturing Co., Canton, Miss., before he entered the Navy in 1942. After training he was one year in the Caribbean Sea, later volunteering for submarine duty. He earned a citation for meritorious service and the submarine combat medal. His home was in Hammond, La. Sigma Phi.

'39 AB—**Lieutenant Peter Edwin ★ Kiple**, Army Air Corps, who was reported missing in 1942, officially declared dead in 1943. He left the marine department of Johnson & Higgins, insurance brokers, 40 Wall Street, New York City, in June, 1941, to go on active duty in the Air Corps, and was stationed first at Mitchel Field, becoming administrative officer in the 33d Pursuit Group. His home was at 42 James Street, Babylon.

'40 AB—**Lieutenant Joseph ★ Michael Voelker** of 7815 Narrows Avenue, Brooklyn, Army Air Corps, killed, October 3, 1944, on his fifty-second bombing mission in northern Italy. Alpha Chi Rho.

'41—Captain John Maxson Tee- ★ garden of Severance, Army Air Corps, pilot of a P-47 (Thunderbolt) which was shot down by German anti-aircraft fire, September 29, 1944, near Baccarat, France, while on a ground support mission, was presumed dead by the War Department, September 30, 1945. A former student in Engineering, he transferred to the US Army Air Corps in May, 1942, after a year with the RCAF. He instructed in Canada and later at Craig Field, Ala., and served with the 23d Fighter Squadron, 36th Fighter Group, 8th Air Force, in the Caribbean before the squadron was sent to England; held the Air Medal. Brother, Robert C. Teegarden '37. Delta Sigma Phi.

'42 AB—First Lieutenant John ★ Welch Tunnell, Marine Air Corps, listed as missing for two years, was presumed dead, January 11, 1946. A member of the 11th Bomber Command, he was shot down over Kahili Airdrome, Bougainville, British Solomon Islands, November 4, 1943. Entering the service in June, 1942, he was stationed at Corpus Christi, Tex., Fort Lauderdale, Fla., and San Diego, Cal., before going overseas. His home was at 15 North Fifth Street, Philadelphia, Pa. Phi Kappa Sigma.

'43—First Lieutenant John ★ Dwight Carpenter, Jr., who was in Agriculture for three years, killed in action over France, June 26, 1944. His home was in Antwerp.

'43—Lieutenant Robert Theo- ★ dore Frost, Jr., USMCR, dive bomber pilot, killed in action over Bougainville, December 18, 1943. He entered Hotel Administration from Chattanooga, Tenn., where his home was at 921 Barton Avenue. Alpha Tau Omega.

Professors **Blanchard L. Rideout**, PhD '36, Romance Languages and chairman of the Arts College advisory board for undergraduates, and **M. Lovell Hulse**, PhD '34, Education and acting Director of the Summer Session, become July 1 Assistant Deans of the College of Arts and Sciences. Professor Hulse has also been appointed Secretary of the College, to succeed Professor **Robert P. Sibley**, English, who will retire. Professor **James D. Burfoot, Jr.**, PhD '29, will become assistant to the Dean of Arts and Sciences.

Herbert H. Williams '25, University Director of Admissions, and **John V. Larkin** '20, Ithaca architect, have been elected vice-presidents of the Ithaca Chamber of Commerce. **Ralph C. Smith** '15 is executive secretary.

The Faculty

President **Edmund E. Day** received the honorary LLD May 11 at Union College, Schenectady, where he spoke at the inauguration of Dr. Carter Davidson as president.

H. Edward Babcock, chairman of the Board of Trustees, spoke on "The Ever-Normal Refrigerator" at the annual meeting of the Chamber of Commerce of the United States in Atlantic City, N. J., May 1.

The honorary LLD was conferred on Dean **Sarah G. Blanding** of the College of Home Economics and president-elect of Vassar, at the Syracuse University commencement, April 28. Her citation read in part: "Frank, fearless, and far-seeing, you typify that intelligent and bold leadership so sorely needed in this period of the testing of American higher education."

Professor **Frank B. Morrison**, Animal Husbandry and Animal Nutrition, and Mrs. Morrison have established a prize of \$1,000 a year to be awarded to members of the American Society of Animal Production for research on beef cattle, dairy cattle, horses, sheep, or swine. Professor Morrison is the author and publisher of the widely-used textbook, *Feeds and Feeding*.

Professor **Earle H. Kennard**, PhD '13, Physics, who has been on leave of absence with the Navy Department in Washington, D. C., since before Pearl Harbor, resigned from the University April 1 to remain in Washington. He is chief supervisor of the hydro-mechanics division of David Taylor Model Basin, one of the Navy Department's laboratories under the Bureau of Ships. He and Mrs. Kennard, AM '26, live in Bethesda, Md., where their address is RFD 3, Box 229. Their son is Jarman G. Kennard '43.

Colonel **Edwin R. Van Deusen**, ★ professor of Military Science and Tactics and ROTC Commandant from May, 1942, until last January, and who was retired by the US Army in May, has been appointed commandant of the Florida Military Academy in St. Petersburg. The school has an enrolment of 300. Colonel and Mrs. Van Deusen will continue to live at 108 Eddy Street, Ithaca, until late August.

Professor **Charles F. Niven, Jr.**, PhD '39, Bacteriology, resigned March 31 to become bacteriologist with Hiram Walker & Sons, distillers, Peoria, Ill. He came to the University in 1935

for graduate work and rose from instructor to associate professor.

Grant of \$1,000 from the American Academy of Arts and Letters and the National Institute of Arts and Letters has been made to Professor **Robert M. Palmer**, Music, in recognition of his creative work in composition. The citation was read at the annual ceremonial at the Academy, May 17. Professor Palmer recently completed his "Second String Quartet," on commission from the Koussevitsky Music Foundation, and has now been commissioned by Dimitri Mitropoulos to write a work for the Minneapolis Symphony Orchestra, the first performance to be next season. Professor Palmer's latest published work is "Toccata Ostinato."

Speaking recently before the Elmira-Corning cost group and the Binghamton chapter of the National Association of Cost Accountants, Dean **Paul M. O'Leary**, PhD '29, of the School of Business and Public Administration predicted increasing government controls over business. Deputy administrator of OPA in charge of rationing during the war, Dean O'Leary criticized present OPA policies, saying they have done "great harm to the American economic system. . . . A group of men who believed in good public relations have pretended to hold the line, while actually they were throwing out the only means possible to combat inflation, such as rationing, allocations, priorities, and taxes."

Dr. **Daniel H. Deyoe** resigned May 1 from the Department of Clinical and Preventive Medicine and has been appointed chief administrative officer of the Mary Imogene Bassett Hospital in Cooperstown. He came to the University in 1936 and from 1941 until last January was in the Army Medical Corps.

Professor **Harold W. Thompson**, English, spoke on "The Folk Medicine of New York State" at the annual convention of the State Medical Society in New York City, May 2. He addressed students of the Elizabeth Irwin High School in New York City and presided at a conference of the State Folklore Society, of which he is president. May 8, he addressed the Cornell Women's Club of Elmira.

Dr. **Simon Flexner**, father of Professor **William W. Flexner**, Mathematics, who is on leave in Europe with the UNRRA, died May 2, 1946, in New York City. Dr. Flexner was pathologist and director-emeritus of the Rockefeller Institute for Medical Research.

(Continued on page 448)

News of the Alumni

*Personal items and newspaper clippings
about all Cornellians are earnestly solicited*

'92 BS—**Fred D. Smith** is in charge of contract trucking for Dairymen's League Co-operative Association, Inc., 11 West Twenty-second Street, New York City 18. He was an instructor in Analytical Chemistry and Assaying at Cornell, 1892-97, and professor of chemistry and geology at the University of Montana, 1897-1900. His daughter is Mrs. **Lois Smith Potts '24**, wife of **Thomas F. Potts '23**.

'93—**Sylvanus D. Locke** writes: "I recently celebrated my three-quarter-century birthday (no more thinking in years). I was given three special birthday parties, one for each quarter-century. The first was with young ladies, which typifies my interest during that period; the second was with the general run of my friends; and the third was given by friends of my own age." Locke is vice-president and treasurer of The Locke Steel Chain Co., Bridgeport, Conn.

'98—Class of '98 men within a few hundred miles of New York had a get-together dinner at the Cornell Club of New York on Monday evening, May 6. The following were present: **Wilton Bentley**, **Frank Keese**, **John Kuhn**, **Andrew Tuck**, **Charles Chalmers**, **Dr. J. E. Gignoux**, **Edgar Johnston**, **Charles Mitchell**, **Arthur Chase**, **William M. Smith**, **Wesley Steele**, **H. W. Jeffers**, **N. J. Sperling**, **J. D. Kennedy**, **F. W. Midgley**, **D. A. Williston**, **A. J. Mac Elroy**, **Isaac Platt**, **Lyman Brown**, **Allen Whiting**. Mike Whiting made a special plea for the Class to increase the Alumni Fund. Henry Jeffers gave some interesting facts relative to reforestation of marginal land in the East and also on the dairy outlook. He said that there were 2,000 less cows in the New York milk shed than a year ago. Each of the men spoke briefly, and of course there were interesting incidents of by-gone days. A most worthwhile evening resulted which will be repeated in October, 1946. Any '98 men who read this and were not present should plan to be with us next October. Drop a line to **Wilton Bentley** or **A. J. Mac Elroy**, Cornell Club, 107 East Forty-eighth Street, New York City, so we can plan for a bigger crowd in October.—**A. J. M.**

'00 EE—**Charles R. Scott**, retired telephone engineer, is a member of Henderson County (N.C.) price panel. He sees frequently **Erle G. Stillwell**, who was a special student in Architecture from 1910-12, and **Edward R.**

Sutherland '09. Scott lives at 1850 Asheville Road, Hendersonville, N. C.

'01 AB, '11 PhD—**Dr. Emily Hickman**, professor of history at New Jersey College for Women, New Brunswick, received May 1 the Avon Award for Women of Achievement in Education from Avon Products, Inc., in recognition of her service to her country as an educator and her efforts to help promote lasting world peace. Dr. Hickman is education chairman for the Women's Action Committee for Victory and Lasting Peace, serves in key positions in several other national organizations concerned with world relations, and was a delegate to the United Nations Conference on International Organization at San Francisco last year. **Margaret Bourke-White '27**, Life photographer-correspondent, received the Avon Award previously this year.

'04, '05 AB—**George C. Robertson** has moved to 1956 Coffee Pot Drive, St. Petersburg 4, Fla. He is special consultant for Armo International Corp. of Middletown, Ohio.

'07 CE—**Joseph Gallagher** is a civil engineer with US Engineer Office, Cincinnati, Ohio. He was transferred April 11 from Wright Field, Dayton, Ohio, when the US Engineer Office there was closed.

'08 AB—**Edward A. Jesser** is vice-president of Dexter-Carpenter Coal Co., 32 Broadway, New York City 4. He married Vera W. Benn, Vassar '09, in 1914. They have three sons: **Benn W. Jesser**, Princeton '36; **Edward A. Jesser, Jr.**, Lafayette '38 and a major in the war; and **Richard W. Jesser**, who is in the Naval Aviation V-5 course at Union College.

'08, '09 ME—**Arthur H. Leavitt** of 804 North Woodland Boulevard, Deland, Fla., has been located in Florida since 1939 as agent for Penn Mutual Life Insurance Co. At present he is completing war work with the local Naval Air Station.

'10—**Francis W. Parker, Jr.** recently finished a year as president of the National Rifle Association. In February, he had the distinction of introducing General Dwight D. Eisenhower at the annual banquet. Parker, who was commissioned colonel in the Army last October and released this winter, practices patent law with Parker & Carter, Chicago, Ill.

'10 ME—**Rudolph Christensen**, distributor and manufacturer of builders

hardware, writes: "Sale of the building I leased forced me to move my business this spring. No vacancies forced me to build. I was glad the CPA believed my business essential and gave their approval. But getting materials was more difficult than getting government permission to build. Everything seems to be under control now." Christensen's address is PO Box 388, Caldwell, N. J.

'10 ME—**William S. Wallace**, insurance broker, has moved his office to 725 Farmers Bank Building, Pittsburgh 22, Pa. He is still active as a member of the local draft board No. 8, Selective Service.

'11 ME—**Howard D. Hadley** is owner of Hadley's Hardware, 112 State Street, Seneca Falls. His son, Captain **Howard D. Hadley, Jr.**, AAF, is going to instruct in psychology and complete work for the PhD at Stanford University. Hadley and Mrs. Hadley (**Cora Comstock**) '08 also have two daughters.

'11 AB—**Carl L. Hibberd** is president of Hibberd Printing Co., and vice-president of the Morris Plan Co. and the Industrial Savings & Loan Association. His address is 321 South Main Street, South Bend 10, Ind.

'12, '13 CE—**John P. Bonner**, chief engineer for Piney Cokleie Coal Land Co., Beckley, W. Va., has been appointed by the Governor to the board of registration for professional engineers of West Virginia.

'12 DVM—**Dr. Leland J. Tompkins** is a milk sanitarian with the milk commission of the Medical Society of the County of Kings and Academy of Medicine of Brooklyn, 1313 Bedford Avenue, Brooklyn.

'13 CE—**Paul J. Maxon** of Cheshire, Conn., is district sales manager for Lamson Corp., Syracuse.

'15—**Herbert C. Phillips** is executive vice-president of Curlee Clothing Co., St. Louis, Mo. His son, **Herbert C. Phillips, Jr.**, will enter the University next September.

'11 AM, '15 PhD—**Dr. James K. Plummer** of 2492 Habersham Road, Atlanta, Ga., is general manager and director of the products division of Tennessee Corp.

'16—The Class met at a dinner at the Cornell Club in New York April 26, with an active group of sixty present. **Frank Thomas** had arranged the evening and presided. Professor **Durham** was a welcome guest and gave a

rousing oration. **Eddie Anderson '17** was also a guest as was **Clayton Cousins '15**. **Frank Hunter**, chairman of the 30th Reunion, which is to take place on June 21 next, gave a preview of that event. **Frank Durham**, in from Chicago, and **Ed Carman**, in from Baltimore, were present. Philadelphia was represented by **Frank Sheetz** and **Al Meaney**. **Bud Fay** made his first appearance after a long absence in the Naval Air Corps, as did **Bill Weedin** who endured a tough assignment with the Army in broiling India.—**W. P.**

'16 AB—**Arthur Golden** resigned from the Petroleum Administration for War November 1 after a war emergency association of two and a half years and accepted the position of sales manager with Connoil Corp., wholesale distributors of all grades of petroleum products, New York City. He lives at 888 Grand Concourse, New York City.

'18—Class Secretary "**Tex**" **Roden** has received a most cordial invitation from the Princeton Class of 1918 for all members of **Cornell '18** who may be in the vicinity to attend the Princeton '18 "post-war twenty-fifth reunion" at Princeton, June 19-22. Yale and Rutgers '18 class secretaries sent greetings published in the Princeton class "Glue Pot," and undoubtedly Roden's reply will likewise appear. He wrote, in part: "Surely, only an institution boasting an Einstein as a member of its faculty and a class with the inventive turn of mind of '18 could figure out that 1946 was an appropriate year in which to celebrate the twenty-fifth anniversary of the Class of 1918. Representing Cornell's 1918ers, I am chagrined that we did not have the mathematical ingenuity to compute that one and come out with the same answer; so, alas, there will be no Reunion at Ithaca for us this year. Instead, perhaps some of us can take advantage of your generous offer to visit you during your celebration of June 19-22. Certainly your kind invitation will be transmitted to my Classmates through the medium of our alumni paper, and I know from experience at other Princeton affairs that your hospitality will be both spontaneous and munificent."

'19—**C. Hugh L. Hudson** writes: "After about fifteen years in the advertising agency business, starting in New York after the first World War, but principally in Louisville, Ky., I became owner of The Farmer-Hudson Co., a store for women and children, Frankfort, Ky., in 1934. In 1940, I

built The Stirrup Cup Restaurant, a drive-in restaurant, in Lexington, Ky. I still operate both businesses. I have five children, three of whom are married, and three grandchildren."

'20 BS—**Kurt A. Mayer** is an industrial relations consultant with Industrial Relations Counselors, Inc., 1270 Sixth Avenue (RKO Building), Rockefeller Center, New York City. He and Mrs. Mayer (**Elna Johnson**) '19 live at 51 Cedar Drive, Great Neck.

'21, '45 WA—**Albert L. Lentz** is in the Pittsburgh office of Cincinnati Milling & Grinding Machines, Inc. He lives at 430 Avon Drive, Mt. Lebanon, Pittsburgh, Pa.

'21 AB—**Frederick K. Beutel** is dean of the college of law at the University of Nebraska, Lincoln.

'21 AB—**Charles D. Mackey**, former Sunday and feature editor of the Philadelphia Record, is Susquehanna County correspondent for the Associated Press and International News Service on the Binghamton Sun and the Scranton Tribune. A resident of Montrose, Pa., he was recently named Montrose's "one-man chamber of commerce" in an advertisement inserted in the Montrose Independent by business and professional men. Mackey is chairman of A Hospital for Montrose Committee; promoted the town's Ski Bowl; managed its Atomic Five basketball team last season; and is now promoting the revival of golf and tennis at its Country Club. Mrs. Mackey is an alumna of the Ithaca Conservatory of Music. They have three sons: Charles, nineteen, who is in the Navy; Richard, seventeen, Pennsylvania French horn champion; and Phil, seven.

CAMP OTTER — 36TH SEASON

For Boys 7 to 17

Leadership in a boys' camp is of utmost importance, and with many former pre-war counselors returning and with other experienced men on its staff, Camp Otter will measure up to its high standards of former years. With Sam Hunter '41 as Camp Physician and with the various specialists in handicraft, nature lore, camp craft, athletics, swimming, etc., parents are assured of a very safe, pleasant, and profitable summer outing for their sons, with one Counselor to each six boys.

There are just a very few openings so enroll immediately.

HOWARD B. ORTNER '19, Director
Telephone Delaware 4426

132 Louvaine Drive
KENMORE 17, N. Y.

'46, '45 BS—Carol F. Skaer of 1467 Amherst Street, Buffalo, was married to James W. Ryan, December 1 at Fort Benning, Ga. She plans to join her husband in Germany this summer.

ONLY three weeks until Class Reunions when some of you will be back on the Campus. We hope that the Reunion will set a new record, and that all of you will drop in at the Co-op.

Last month we talked about **Cornell Glasses**; now we have two new ones. A hand-blown **7½ oz. (Old Fashioned)** size at **\$3.50 per doz.** and a machine-made **12 oz. size** at **\$1.75**. With hand-blowns in **9½ oz.** and **12 oz.** too, there's a size for every type of thirst.

The new **Cornell Sport Shirts** are right in season and we've gone coeducational with a special Cornell sport shirt for girls. All of them are white, with Cornell insignia in red, and the price is **\$1.19**, postpaid, either for a he or a she.

And here are a few new items of **Cornell Seal Jewelry**:

Elgin Compacts at \$7.50
Men's Gold Expansion Watch Bracelets at \$10.50
Ladies' Bracelet and Locket Sets at \$15.00

Our complete line includes **Pins, Locketts, Compacts, Bracelets, Key Chains, Cigarette Cases**, and many other items and prices start at **\$1.00**. Write for a price list.

And don't forget: Reunion at Cornell is a time to remember!

(Continued from page 439)

E. Elaine Knowles, PhD '44, former assistant professor of Home Economics now at Teachers' College, Columbia University, was married to James A. Weaver, April 28 in New York City. Graduate of Ohio State University, Weaver is an industrial management engineer with Norris & Elliott, Inc., at New Brunswick, N. J.

Mrs. Imogene Crandall, mother of Professor **Carl Crandall '12**, Civil Engineering, died May 5, 1946, at her home in Ithaca. She also leaves two other sons: Lynn Crandall '10 and Howard Crandall '18.

Professor **Curtis P. Nettels**, History, attended the first business meeting of the Institute of Early American History and Culture, sponsored by the College of William and Mary and Colonial Williamsburg in Williamsburg, Va., May 3-4.

Planning Programs for Veterans in Rural Areas, Bulletin 825 of the University Agricultural Experiment Station, is written by Professor **Edwin R. Hoskins '18**, Rural Education.

Horace H. Benson '29, director of the University Employment Office and executive officer of the Campus Patrol, has been appointed to the Ithaca Civil Service Commission by Mayor Conley. He succeeds Assistant University Treasurer **James E. Matthews '17**. Professor **Francis J. Seery**, Hydraulics, Emeritus, is also on the Commission.

Lieutenant Colonel **Alexander N. ★ Slocum, Jr. '25** has been assigned to the staff of the Department of Military Science and Tactics at the University. A graduate of the Command and General Staff School, Fort Leavenworth, Kans., he participated in the African and Sicilian campaigns under General George S. Patton, Jr., initiating all Intelligence planning for the assault on Sicily by the Western Task Force in 1942 and taking part in similar planning for the Moroccan invasion. Colonel Slocum is credited with the organization of the first Photo Intelligence section for extensive interpretation of aerial photographs. In 1943, he joined the faculty of the Command and General Staff School to train officers in armored tactics; worked under the Marine program as director of Intelligence training, and prepared a program for all units to be redeployed to Japan. Son of Alexander N. Slocum '01, he is a member of Theta Delta Chi and was associate editor of The Cornell Daily Sun.

To help increase "Take-Home Savings"

THE Treasury Department has published two new booklets to help you and your employees realize the utmost benefit from your Payroll Savings Plan—benefits proportioned to the extent your employees add to "take home savings" by buying and holding U. S. Savings Bonds.

"Peacetime Payroll Savings Plan" for key executives offers helpful suggestions on the conduct of the Payroll Savings Plan. In addition, it quotes leaders of Industry and Labor and their reasons for supporting the Plan.

"This Time It's For You" is for distribution to employees. It explains graphically how this convenient, easy thrift habit works. It suggest goals to save for and how much to set aside regularly in order to attain their objectives. If you have not received these two booklets, or desire additional quantities, communicate with your State Director of the Treasury Department's Savings Bond Division.

See your Payroll Savings Plan through to maintain your share in America's future. It is sound economics and a powerful force for good today—and tomorrow—as a safeguard for stability and a reserve of future purchasing power—money that is kept within your community.

The Treasury Department acknowledges with appreciation the publication of this message by

CORNELL ALUMNI NEWS

VALENTINO SARRA, PHOTOGRAPHER OF MEN OF DISTINCTION

For Men of Distinction...LORD CALVERT

"CUSTOM" Blended for the enjoyment of those who can afford and appreciate the finest...Lord Calvert has been for years the most expensive whiskey blended in America. So rare, so smooth, so mellow, it has never been produced except in limited quantities, with each bottle individually numbered and registered at the distillery.

LORD CALVERT IS A "CUSTOM" BLENDED WHISKEY, 86.8 PROOF, 65% GRAIN NEUTRAL SPIRITS. CALVERT DISTILLERS CORP., NEW YORK CITY.
