January 7, 1959.

Geneva, N. Y.

STATION STAFFERS ON-THE MOVE

Mike Szkolnik is leaving Thursday morning to participate in the 65th Annual Meeting of the Massachusetts Fruit Growers' Association being held in Hudson, Mass. on Jan. 8-9. Mike is presenting a paper on "Apple Scab and Powdery Mildew".....Kark Brase will leave for Rochester on Friday to participate in a Monroe County Fruit School. Karl will discuss the general aspects of size controlling rootstocks for apples.....John Tomkins left this morning for New York City. John will attend a three day meeting on weed control.

COMMITTEE MEETIN IN JORDAN HALL

The Agricultural Committee of the New York State Canners and Freezers Association will spend Friday at the Station. They will meet with members of Entomology, Vegetable Crops, Plant Pathology, and Food Science to plan details of the Annual Fieldmen's Conference to be held on Feb. 10-11 at the Station.

NOTE FROM THE SAFETY COMMITTEE

Now that snow and ice is here it behooves everyone to be extra careful to avoid falls. If you do have a fall, or any kind of an accident, report it to your supervisor or Miss Holtby at once.

STATION SEMINAR

There will be a Station seminar on Friday, January 9, at 3:30 P. M. in Jordan Hall. Dr. Heinicke will speak on: "Some Practical Aspects of Photosynthesis in Horticultural Research".

"ALL ABOUT APPLES"

The movie "All About Apples" filmed and edited by the Western New York Apple Growers Association under the direction of Fred Corey will be shown in the Staff Room next Monday, January 12th, at 4:00 P. M. Much of the "cast" is made up of Station personnel, so come and see yourself "at work". The film was shown here at the time of the annual meeting of the Fruit Testing Association last fall, but it has been edited to some extent since then and also many of us did not get a chance to see it at that time. The film is in color and runs about 28 minutes.

TO PRESENT A SEMINAR IN ITHACA

Larry Lewin will present a seminar Friday afternoon to members of the Department of Biochemistry at Ithaca.

CAST AND CRUTCHES

Dr. Crosier slipped and fell on the ice near the Greenhouse last Friday afternoon. He was taken to the hospital where x-rays revealed 2 broken bones in his ankle plus torn ligaments. His foot was put in a cast and he was sent home Saturday. He has orders to stay in bed for a week and then on to crutches.

HOME FROM DAIRYLAND

The Wagenknechts are back after a 2 weeks vacation in Wisconsin. Austin says that Chicago can now be by-passed by a toll road, thus saving considerable wear and tear on the nervous system. The weather out there was fine and they had a fine visit with both of their folks.

IN THE HOSPITAL

We regret to note that Frank Bowen, for many years the Station's Financial clerk, is laid up in the Geneva General Hospital. It is hoped that he can be moved to the Jensen Nursing Home in the near future.

"ENDS" VS. "MEANS"

George Axinn, formerly editorial assistant here and now Assistant Extension Director, Michigan State College, is the author of a thought-provoking article on "The Extension Agent's Dilemma" in the December issue of BETTER FARMING METHODS. George argues for a critical appraisal of the real purpose of a given activity with regard to the varied services rendered by Extension personnel, but much the same sort of confusion over means and ends prevails in other fields of agricultural work as well.

WANTED TO RENT

A house, unfurnished, in or near Geneva. For further information see Howard Baker in Sturtevant Hall.

TWO-TIMING GRANDFATHER

A holiday season communication from Doctor Floyd Lovelace, formerly Station chemist and now with the Animal Husbandry Department at Ithaca, informs us that Floyd celebrated the arrival of not one but two grandsons during 1958. In August a son, Thomas Edward, was born to Tech. Sgt. and Mrs. Donald E. Lovelace at Tyndall Air Force Base, Florida; and in November a son, Robert L. Jr., was born to Mr. and Mrs. Robert L. and Audrey Ann (Lovelace) Caughey of Cortland, N. Y. Congratulations, Floyd and best wishes to all the family for 1959!

JUST TOO BAD!

A quote from a recent letter to George Slate from Harold Tukey of Michigan State University.... "I am leaving in the morning for California for several weeks and I am taking with me six tickets on the 50-yard line and 4 boxes (of lunch?) on the 50-yard line (NB. for the Rose Bowl game!). This is really very hard to take, but it is one of my official duties and I must do this for my alma mater!" Harold is faculty representative for Michigan State on the Big Ten Conference board.

MISSING FROM THE LIBRARY

Annual Review of Plant Physiology, 9, 1958

Archives of Biochemistry & Biophysics, Vol. 76, No. 2, Oct. 1958.

Please return.
