Breast Cancer and Pesticide Diazinon Bibliography

This bibliography is provided as a service to our readers. It is compiled from the entries in the [BCERF Environmental Risk Factors Bibliographic Database](#).

This bibliography is arranged topically. The topics include:

- [Review Articles on Diazinon](#)
- [Cancer Risks in Diazinon-Exposed Humans](#)
- [Experimental Animal Studies of Diazinon and Cancer](#)
- [Diazinon and Mammary Cancer in Experimental Animals](#)
- [Mutagenicity and Genotoxicity: Review Articles](#)
- [Mutagenicity and Genotoxicity: In Yeast and Bacteria](#)
- [Mutagenicity and Genotoxicity: Genotoxicity in Animals and Humans](#)
- [Tumor Promotion](#)
- [Reproductive Toxicity and Teratogenicity](#)
- [Hormone Disruption and Estrogenicity](#)
- [Immunotoxic Effects](#)
- [Other Toxic Effects \(Non-Carcinogenic\)](#)
- [Occupational Exposure](#)
- [Environmental Fate: Air Residues](#)
- [Environmental Fate: Food Residues](#)
- [Environmental Fate: Water Residues](#)
- [Environmental Fate: Soil Residues](#)
- [Tissue Accumulation: Diazinon Residues in Cows' Milk](#)
- [Tissue Accumulation: Accumulation in Other Body Tissues](#)

Review Articles

ANON (1968). An organophosphorus round-up: Part I. *Food and Cosmetic Toxicology* 6, 794-797.

ATSDR. (1996). Toxicological Profile for Diazinon, NTIS PB97-121107 (Research Triangle Institute, North Carolina: Agency of Toxic Substances and Disease Registry, U.S. Department of Commerce).

FAO/WHO. (1993). Pesticides Residues in Food -1993 (Diazinon). In Joint FAO / WHO meeting on pesticide residues, pp. 57-81.

Gallo, M. A., and Lawryk, N. J. (1991). Organic phosphorus pesticides. In *Handbook of Pesticide Toxicology*, W. J. Hayes and E. R. Laws, eds. (San Diego, CA: Academic Press, Inc.), pp. 1049-1053.

Meister, R. T. (1998). Pesticide Dictionary; Diazinon. In *1998 Farm Chemicals Handbook*, R. T. Meister, ed. (Willoughby, OH: Meister Publishing Company), pp. C 129.

Montgomery, J. H. (1993). Diazinon. In *Agrochemicals Desk Reference* (Boca Raton: Lewis Publishers), pp. 135-138.

WHO. (1998). Environmental Health Criteria for Diazinon (Geneva: World Health Organization).

Worthing, C. R. (1991). Diazinon. In *The Pesticide Manual*, C. R. Worthing, ed. (Lavenham, Suffolk (Great Britain): The British Crop Protection Council), pp. 243-244.

Cancer Risks in Humans

Blair, A., Cantor, K. P., and Zahm, S. H. (1998). Non-Hodgkin's lymphoma and agricultural use of the insecticide lindane. *American Journal of Industrial Medicine* 33, 82-87.

Brown, L. M., Blair, A., Gibson, R., Everett, G. D., Cantor, K. P., Schumann, L. M., Burmeister, L. F., Van Lier, S. F., and Dick, F. (1990). Pesticide exposures and other agricultural risk factors for leukemia among men in Iowa and Minnesota. *Cancer Research* 50,6585-6591.

Cantor, K. P., Blair, A., Everett, G., Gibson, R., Burmeister, L. F., Brown, L. M., Schumann, L., and Dick, F. R. (1992). Pesticides and other agricultural risk factors for non-Hodgkin's lymphoma among men in Iowa and Minnesota. *Cancer Research* 52,2447-2455.

Davis, J. R., Brownson, R. C., Garcia, R., Bentz, B. J., and Turner, A. (1993). Family Pesticide use and childhood brain cancer. *Archives of Environmental Contamination and Toxicology* 24,87-92.

Morris, P. D., Koepsell, T. D., Daling, J. R., Taylor, J. W., Lyon, J. L., Swanson, G. M., Child, M., and S., W. N. (1986). Toxic substance exposure and multiple myeloma: a case-control study. *Journal of National Cancer Institute* 76,987-994.

NCI. (1979). Bioassay of diazinon for possible carcinogenicity, DHEW Publication No. (NIH) 79-1392 (Bethesda, MD: Dept. of Health, Education and Welfare).

Zahm, S., Weisenburger, D. D., Saal, R. C., Vaught, J. B., Babbitt, P. A., and Blair, A. (1993). The role of agricultural pesticide use in the development of non-Hodgkin's lymphoma in women. *Archives of Environmental Health* 48,353-358.

Experimental Animal Studies of Diazinon and Cancer

Barnes, T. B. (1988). 90-day oral toxicity study in dogs (unpublished study done for Ciba-Geigy Corporation dated August 4, 1988), J. R. Hazelette and A. T. Arthur, eds. (Ciba-Geigy Corporation, Summit, NJ, pp. 8-47,300-320, 471-474.

Cockrell, K. O., Woodard, M. W., and Woodard, G. (1966). Diazinon 50W safety evaluation by repeated oral administration to monkeys for 100 weeks. Final report. (unpublished study done for Geigy Agricultural Chemicals dated June 1, 1966) (Woodard Research Corporation, pp. 1-12.

Giknis, M. L. A. (1989). A two generation reproductive study in albino rats (unpublished study done for Ciba-Geigy Corporation dated February 9th, 1989), D. M. Raab, M. A. Youreneff and E. T. Yau, eds. (Ciba-Geigy Corporation, Summit, NJ, pp. 19-119.

Kirchner, F. R., McCormick, G. C., and Arthur, A. T. (1991). One/two-year oral toxicity study in rats (unpublished study done for Ciba-Geigy Corporation dated June 14, 1991) (Ciba-Geigy Corporation, Summit, NJ, pp. 1-42.

NCI. (1979). Bioassay of diazinon for possible carcinogenicity, DHEW Publication No. (NIH) 79-1392 (Bethesda, MD: Dept. of Health, Education and Welfare).

Rudzki, M. W., McCormick, G. C., and Arthur, A. T. (1991). 52-week oral toxicity study in dogs (unpublished study done for Ciba-Geigy Corporation) (Ciba-Geigy Corporation, Summit, NJ, pp. 19-33.

Mammary Cancer in Experimental Animals

Kirchner, F. R., McCormick, G. C., and Arthur, A. T. (1991). One/two-year oral toxicity study in rats (unpublished study done for Ciba-Geigy Corporation dated June 14, 1991) (Ciba-Geigy Corporation, Summit, NJ, pp. 1-42.

NCI. (1979). Bioassay of diazinon for possible carcinogenicity, DHEW Publication No. (NIH) 79-1392 (Bethesda, MD: Dept. of Health, Education and Welfare).

Mutagenicity and Genotoxicity: Review Articles

Garrett, N. E., Stack, H. F., and Waters, M. D. (1986). Evaluation of genetic activity profiles for sixty-five pesticides. *Mutation Research* 168, 301-325.

Moutschen-Dahmen, J., Moutschen-Dahmen, M., and Degraeve, N. (1984). Mutagenicity, Carcinogenicity, and Teratogenicity of Insecticides. In *Mutagenicity, Carcinogenicity, and Teratogenicity of Industrial Pollutants*, M. Kirsch-Volders, ed. Plenum Press, New York and London), pp. 127-202.

Shahbeg, S. S., Waters, M. D., Simmon, V. F., Mortelmans, K. E., Mitchell, A. D., Jorgenson, T., Jones, D. C. L., Valencia, R., and Stack, F. (1985). Evaluation of the Genotoxic Potential of Certain Pesticides Used in Pakistan. In *Basic and Applied Mutagenesis*, A. Muhammed and R. C. von Borstel, eds. (New York: Plenum Press), pp. 185-219.

Shelby, M. D., and Stasiewicz, S. (1984). Chemicals showing no evidence of carcinogenicity in long-term, two -species rodent studies: the need for short-term test data. *Environmental Mutagenesis* 6, 871-878.

Waters, M. D., Simmon, V. F., Mitchell, A. D., Jorgenson, T. A., and Valencia, R. (1983). A phased approach to the evaluation of environmental chemicals. In *In Vitro Toxicity Testing of Environmental Agents*, A. R. Kolber, T. K. Wong, L. D. Grant, R. S. DeWoskin and T. J. Hughes, eds. (New York and London: Plenum Press), pp. 417-441.

Zeiger, E. (1987). Carcinogenicity of mutagens: predictive capacity of the Salmonella mutagenesis assay for rodent carcinogenicity. *Cancer Research* 47,1287-1296.

Mutagenicity and Genotoxicity: In Yeast and Bacteria

Eckardt, F., and von Borstel, R. C. (1985). Mutagen testing of agricultural chemicals with yeast. In *Basic and Applied Mutagenesis*, A. Muhammed and R. C. von Borstel, eds. (New York: Plenum Press), pp. 221-249.

Marshall, T. D., Dorough, H. W., and Swim, H. E. (1976). Screening of pesticides for mutagenic potential using *Salmonella typhimurim* mutants. *Journal of Agricultural and Food Chemistry* 24,560-563.

Moriya, M., Ohta, T., Watanabe, K., Miyazawa, T., Kato, K., and Shirasu, Y. (1983). Further mutagenicity studies on pesticides in bacterial reversion assay systems. *Mutation Research* 116, 185-216.

Nagy, Z., Mile, I., and Antoni, F. (1975). The mutagenic effect of pesticides on *Escherichia coli* WP2 *try-*. *Acta Microbiologica Academiae Scientiarum Hungaricae* 22,309-314.

Shirasu, Y., Moriya, M., Kato, K., Furuhashi, A., and Kada, T. (1976). Mutagenicity screening of pesticides in the microbial system. *Mutation Research* 40,19-30.

Venkat, J. A., Shami, S., Nayak, K. D., Plimmer, J. R., Pfeil, R., and Nair, P. P. (1995). Relative genotoxic activities of pesticides evaluated by a modified SOS microplate assay. *Environmental and Molecular Mutagenesis* 25,67-76.

Wild, D. (1975). Mutagenicity studies on organophosphorus insecticides. *Mutation Research* 32,133-150.

Wong, P. K., Wai, C. C., and Liong, E. (1989). Comparative study on mutagenicities of organophosphorus insecticides in *Salmonella*. *Chemosphere* 18,2413-2422.

Mutagenicity and Genotoxicity: Genotoxicity in Animals and Humans

Bianchi-Santamaria, A., Gobbi, M., Cembran, M., and Arnaboldi, A. (1997). Human lymphocyte micronucleus genotoxicity test with mixtures of phytochemicals in environmental concentrations. *Mutation Research* 388, 27-32.

De Ferrari, M., Artuso, M., Bonassi, S., Bonatti, S., Cavalieri, Z., Pescatore, D., Marchini, E., Pisano, V., and Abbondandolo, A. (1991). Cytogenetic biomonitoring of an Italian population exposed to pesticides: chromosome aberration and sister-chromatid exchange analysis in peripheral blood lymphocytes. *Mutation Research* 260, 105-113.

Kiraly, J., Szentesi, I., Ruzicska, M., and Czeize, A. (1979). Chromosome studies in workers producing organophosphate insecticides. *Archives of Environmental Contamination and Toxicology* 8, 309-319.

Kuroda, K., Yamaguchi, Y., and Endo, G. (1992). Mitotic toxicity, sister chromatid exchange, and rec assay of pesticides. *Archives of Environmental Contamination and Toxicology* 23,13-18.

Lopez, D., Aleixandre, C., Mercahn, M., and Carrascal, E. (1986). *In vitro* induction of alterations in peripheral blood lymphocytes by different doses of diazinon. *Bulletin of Environmental Contamination and Toxicology* 37,517-522.

Lopez, D. E., and Carrascal, E. (1987). Sensitivity of human lymphocyte chromosome to diazinon at different times during cell structure. *Bulletin of Environmental Contamination and Toxicology* 38,125-130.
