marjoriea@hotmail.com

The following foam has been approved for storage by MV Conservation Department in 2005:

Product Name: Plastazote LD 45

Colours: Black or White

Supplier:

Dunlop Foams
36 Commercial Drive
South Dandenong, VIC 3164
Australia
ABN: 23098742584

Phone: 03 9215 2020

Fax: 03 9215 2010

The foam comes in sheets 10 mm and 30 mm thickness, but can be customised to any thickness.

Customised foam inserts for standard storage containers:

Customised foam inserts for blue and grey storage containers have been designed by Neville Quick and the CIS team, for storing a range of objects:

- Glass objects
- Fragile objects – e.g. wax fruit
- Vacuum Tubes
- Specimen jars – e.g. Economic Botany Collection

The system allows a higher density of storage, support for fragile objects and improved accessibility.

The tooling dies for these templates are being held for MV at Dunlop's premises; hence a tooling fee is not required when future orders are placed.

Customised foam inserts below come in a 30 mm thickness. Two inserts can be used to support taller objects.

Sections can be cut out to accommodate irregular sized objects – such as light globes / vacuum tubes.

Prices in Australian dollars

Dunlop Ref #	Circular Cavity Size:	Template #	Box Type	Unit Price (as of 2005)
