CORNELL UNIVERSITY STATISTICS CENTER

Statistics Journals at Cornell:

A list of serials dealing with statistics and statistical applications available in the Cornell University Libraries, August 1980

S. P. SEARLE and S. R. SEARLE

Lists of statistical journals prepared by R. C. Nair (Biometrics Unit, 1973) and S. W. Rockey (Mathematics Department, 1980) have been amalgamated, and the 1973 entries updated. The listing of each serial is the same as that used in the Cornell University Libraries; for example, "Journal of the American Statistical Association" is listed as "American Statistical Association, Journal of". Journals that have had name changes are shown under their old and/or new names.

All entries were taken from the master serial catalog in Olin Library in August 1980, but have not been checked against shelf holdings or against other library catalogs. The list is therefore bound to contain errors. And it is assuredly not complete, with regard to containing all journals available in the Cornell Libraries that are of interest to statisticians. These deficiencies can be rectified by users of the list sending corrections and additions for future issues to the Statistics Center, 340 Warren Hall.
