## CORNELL CLASS VISITS STATION

Professor Pridham's class on nursery propagation visited the Station last Friday. Claude Heit spoke to them about the collecting, extraction, and planting of nursery stock of trees and shrubs. Claude took the class over to his nursery and spoke to them there. They also toured commercial nurseries in the area.

\*\*\*\*\*

## SCHOOL TOUR

The Vocational Agricultural Class and the Home Economics Class from Sherbourne Central School will visit the Station Friday afternoon. They have expressed a desire to see some of the seed testing work, work of the Food Science Department and some of the fruit work in the greenhouse. A tour has been arranged for them.

\*\*\*\*\*

## PRECISION PEA PLANTER ARRIVES AT THE STATION

The John Deere Company's precision pea planter will be at the Station this week. Professor Sayre says if Monday's weather holds for the rest of the week they'll be using it the latter part of the week.

\*\*\*\*\*

## FORESTRY STUDENT VISITS SEED LAB

Robert Hunt, from the College of Forestry at Syracuse, spent Saturday afternoon with Claude Heit at his nursery and then spent Sunday morning at the Seed Laboratory with Claude Heit. He was particularly interested in tree seed certification.

\*\*\*\*\*

## GUEST LECTURER AT CORNELL

Norman Lawrence was guest lecturer at Cornell on Friday and again on Monday. Norm lectured the class on advanced Bacteriology.

\*\*\*\*\*

## HONORED

Each year the American Association for the Advancement of Science announces the election of association members to their 50 Year Member Group. Professor F. Z. Hartzell was elected to this select group this year.

\*\*\*\*\*

## CHAIRMAN FOR CHEST DRIVE

Professor Luckett and Charles Amidon have been appointed chairmen for the 1957 Community Chest Drive at the Station. They say that the Station quota has been raised slightly this year. Full information will be in next week's Station News.

\*\*\*\*\*

## CONVALESCING

Dr. Hucker underwent surgery in Strong Memorial Hospital in Rochester last Friday. He is getting along fine and expects to be home soon.

\*\*\*\*\*

## MAKING PLANS FOR STATE FAIR

Professor Lockett and Paris Trail will spend most of Thursday at Ithaca conferring with Professor Elmer "Flip" Phillips on exhibits for this year's State Fair.

\*\*\*\*\*

## STATION NOTES

Dr. and Mrs. Pederson left last week for Boston to spend a week with their son, Dr. Donald Pederson....Both the young ladies whose arrival was noted recently in the Station News have been named. The Szkolnik's new daughter is Joan Ellen and the Consolie's new daughter is Nancy.....The Chemistry building gang threw a farewell party for Jean Cook last Friday afternoon. Friday was Jean's last day.

## NICE WEATHER SPEEDS UP FIELD WORK

This belated spring weather has speeded up field work at the Station. Eddie Munzer was out in the vineyards on Tuesday morning putting on the first weed control sprays of the year....Dr. Cain and his crew are busy pruning in the experimental peach orchard at the Darrow Farm....The spray crew is taking advantage of the spring weather to put the last of the dormant sprays on the seedling apple trees. Roy says this will finish the dormant sprays for this year....Part of the Veg Crops crew spent Tuesday morning overhauling the belt seeder. They expect to be using it this week if the weather holds....LaVerne Norsen was busy Tuesday morning at the barn, loading equipment to treat pea seeds for the seed treatment experiments....Wilson Hey says the ground is still a little too wet to work but they'll be at it later this week if it doesn't rain.
