

**1997 ICM Scouting Results For  
Albany, Schenectady and Rensselaer Counties**

1997's Tri-County ICM program was funded through cost sharing from USDA's expiring SP-53 program for Integrated Crop Management. Participation has increased from two farms in 1994 to a total of eight in 1997. Through the four years the program has been up and running in the Capitol District, ten farms have participated. We expect to have at least ten participants for the 1998 growing season, with funding coming from several different sources. At least two producers will continue the program with no cost sharing.
