

**Quantifying disease suppression activity  
of organic fertilizer/microbial products on golf course turfgrass  
in the Capital District of New York State**

**Principle Investigator:**

David Chinery, Cooperative Extension Educator and Turfgrass Specialist, Cornell  
Cooperative Extension of Rensselaer County, Troy, NY

**Other Investigators:**

Dr. Eric Nelson, Turfgrass Pathologist, Dept. Of Plant Pathology, Cornell  
University, Ithaca, NY

Peter French, CGCS, Town of Colonie Golf Course, Colonie, NY

**Purpose:**

This project has the following objectives:

1. To quantify the effectiveness of 12 organic-based fertilizer/microbial products in suppressing fungal diseases on golf course fairway turfgrass
2. To evaluate turfgrass quality differences between the 12 organic-based fertilizer/microbial products
