Yours of 24th inst

received. I suffer so much with
a strain of the muscles of my
right eye, that I have done
no professional work for 2 years.

My books & diaries are
packed in attic. I will
give the data asked for
from memory.

In 1858 made a model of
double intersection truss, with wide
thin eye bars, connected by pins,
upper chords in panel lengths, Sans-
pension diagonals & ~~center~~ center with pin
connections, In 1859 recommended
