Women, the Workplace, and Breast Cancer Risk Bibliography

This bibliography is provided as a service to our readers. It is compiled from the entries in the [BCERF Environmental Risk Factors Bibliographic Database](#).

Please send comments on this bibliography or citations you feel would be appropriate to add to this bibliography by email to: breastcancer@cornell.edu This bibliography is arranged topically. The topics include:

- [Background](#)
 - [Understanding the Biology of the Breast](#)
 - [Breast Cancer Risk Factors](#)
 - [Role of Environmental Risk Factors](#)
 - [Occupations and Cancer Risk](#)
 - [Why Occupational Cancers Should Be Studied in Women](#)
- [History](#)
- [Breast Cancer Risk Due to Occupational Chemical Exposure](#)
 - [Dioxin](#)
 - [Ethylene Oxide](#)
 - [Gasoline and Vehicular Exhaust](#)
 - [Metals](#)
 - [Methylene Chloride](#)
 - [Pesticides](#)
 - [Rubber](#)
 - [Tobacco Smoke](#)
 - [Solvents](#)
 - [Industrial Chemicals](#)
 - [Tetrachloroethylene \(TCE\)](#)
 - [Vinyl Chloride](#)
- [Breast Cancer Risk in Specific Occupations](#)
 - [Airline Attendants](#)
 - [Cosmetologists](#)
 - [Electrical Workers](#)
 - [Laboratory Workers](#)
 - [Religious Orders](#)
 - [Nurses](#)
 - [Office Workers](#)
 - [Painters and Printers](#)
 - [Radium Dial Workers](#)
 - [Teachers](#)
 - [Semiconductor Industry](#)
 - [Night-shift Workers](#)
- [Breast Cancer and Electromagnetic Fields \(EMFs\)](#)
- [Future Directions](#)
 - [Occupations That Need Further Study](#)
 - [Development of Methods to Better Characterize Chemical Exposures](#)
 - [Characterization of Chemical Exposures by Job and Task](#)
 - [Determine if Gender Differences Affect the Magnitude of Exposure](#)
